

FIERCE SLAUGHTER

Chinese Rebels Were Mowed Down by Imperial Forces

HANKOW, Oct. 26.—The imperial forces are preparing to follow up their victory over the rebels last week by an attack on Wu Chang, which the revolutionists have protected by elaborate emergency fortifications, and Hanyang, which is regarded as of the utmost importance on account of the arsenal there. Admiral Sah yesterday notified the foreign consuls that he was about to begin a bombardment of Wu Chang, and asked that all foreigners be ordered to leave at once. The loyalists are now in undisputed possession of the entire city of Hankow, including the powder factory. They also are in control of the railway.

Friday's battle at Kilometer Ten was a splendid exhibition of gameness and pluck on the part of the rebel forces. Although they were outnumbered 2 to 3 by the trained force of imperialists in front of them and were subjected from the flank to a raking cross fire from Admiral Sah's warships they held their ground until nearly 500 had been killed and 1500 wounded. At last they were compelled to retire. Their ranks were broken but there was no panic.

The advance of the loyalists was a splendid justification of the training which these northern troops have received recently under European instruction. Ten thousand strong, they crossed into the rebel territory during the night and attacked the entrenched revolutionary forces at daybreak Friday morning. They were about 5000 of the rebel troops. These were behind well planned fortifications and had little to fear from the attack of the troops.

It was the guns of Admiral Sah's fleet which finally decided against them.

Sah's eight vessels approached the rebel positions soon after the advance of the imperial troops, began, but did not fire any shots. After a little while the eight ships silently retired as if they had decided not to participate in the engagement. Later they returned, this time ready for business. The range was short and the gunners mercilessly poured in their shells upon the rear of the rebel position. The slaughter was appalling. The rebel batteries

Man Seriously Injured While at Work in Hamilton Mill Yard

Olivia Shaddock, residing in Wilkes street and David Shaddock, of 215 Allen street, were seriously injured while at their work this forenoon in the Hamilton Mill Co. yard. They were both removed to the Lowell hospital, where the attending physicians have little hope for their recovery.

The mill officials when questioned about the accident this forenoon stated they did not know how it happened, but it was stated that the two men were employed in loading freight cars with cotton bales, and that they were both caught between two cars. The accident happened at 8:15 o'clock this morning. The injured men were removed to the Lowell hospital in the ambulance and there it was found that Shaddock was suffering with a broken collar bone and several fractured ribs, while Parulis also had several ribs shattered and his right hand badly lacerated.

GIRL HAS DISAPPEARED

She Was Visiting a Relative in Andover

Mrs. Emily Fredette of Grand street is anxiously awaiting tidings of the whereabouts of 14 year old Florence Gilbert Taylor, her sister by adoption though many years her junior who disappeared at Andover on Saturday under very peculiar circumstances. None years ago, Florence Gilbert, then five years of age and a member of a large family of orphan children, was adopted by Mrs. Phoebe Taylor, mother of Mrs. Fredette, and brought to Lowell. Mrs. Taylor took legal adoption papers and the little girl took the name of her foster-mother. Mrs. Taylor came to live with her daughter, Mrs. Fredette, some few years ago and upon her death the little girl continued to live with Mrs. Fredette as one of the family, sharing the comforts of her own children and receiving a good education. For years no tidings were received of the other members of the family until recently Mrs. Fredette received word from an older sister, Belle Gilbert, making known the fact that she was residing in Andover and would like to see her sister.

Mrs. Fredette replied that she would visit her at Andover on Saturday, looking with her the little girl. On Saturday morning they went to Andover and met Belle Gilbert, the little girl failing at first to identify her sister. The reunion was very pleasant for an hour or two when Belle Gilbert suddenly recalled the fact that she had an important errand to engage her attention and asked permission to take

DAMAGED BY FIRE

Gasoline Causes a Blaze in Chelmsford

A four cylinder Buick automobile, belonging to Charles N. Woodward, manager of Bright, Sears & Co., brokers of this city, was damaged by fire on the Robbins Hill road in Chelmsford, Saturday evening.

The car became stalled in the afternoon, owing to carburetor trouble, and after working on the machine for a considerable length of time it was decided to send for a mechanic to look into the trouble. Word was sent to one of the local garages and men were sent to Chelmsford to make adjustments to the carburetor.

It was nearly dark as the repairs were being made and in order to provide a light a person who was present lighted a match to assist the men who were underneath the car. The head flew from the match and set fire to the gasoline which was on the road.

The men under the car hurried to get out of danger and fortunately escaped being burned, but before the fire could be extinguished the flames had burned one of the forward wheels, the tire and the woodwork about the front of the car. The car was later towed back to this city.

RUSHING THE WORK

Street Dept. is Pushing Smooth Paving

The street department will finish the smooth paving work on the west side of Dutton street today and will move into East Merrimack street tomorrow. The bad weather put the department back in its work and Supt. Putnam allows he will have to go some to get through before the snow flies. The idea of moving from Dutton street to East Merrimack street is to keep the pavers going. It will require a week for the side of Dutton street that is finished to dry and by that time the pavers will be pretty well through with the north side of East Merrimack street. Then they will return again to Dutton street and back again to East Merrimack street.

School Committee Tonight

The school committee will meet tonight instead of tomorrow night as was scheduled on the weekly bulletin. Some of the committee members will be engaged tomorrow night and their brother members were willing that the meeting should be held tonight.

GRAND SERVICES

Immaculate Conception Church Re-opened to Worshippers Yesterday

The re-dedicated Immaculate Conception church was reopened yesterday with beautiful and impressive services, inspiring music and one of the most potent sermons ever heard in Lowell.

A description of the new interior of the church appeared in Saturday's Sun, but to be appreciated the splendour and beauty of the interior had to be seen by and from the expressions of delight heard on all sides after the services. It was evident that the fondest artists and patrons of the parishioners had been transfused through the oblates of the Immaculate Conception church.

Several hundreds were sent in the upper church during the morning, but the principal service was the solemn high mass at 11 o'clock to which many from all over the city had been invited. In addition to the parishioners, themselves and the great edifice was crowded to the doors when the impressive procession of clergymen and altar boys emerged from the vestry. There was much about the responding to recall to the minds of the older members of the parish the original dedication of the church in 1877 under the zealous pastorate of Rev. James McLaughlin, O. M. I., of half-brother, the founder of the Sacred Heart church, and Rev. the parish for Rev. Fr. Cooke, the preacher of the occasion, was an angel.

The church was decorated with flowers and the immaculate of the marble altar was emphasized by the glow of hundreds of lighted candles. The music by a choir of 50 voices under the direction of Joseph P. Courtney was an inspiring feature of the service.

Mrs. Huch Walker presided at the re-dedicated organ, now the most important as to power and tone in most artistic manner. At the offertory the stately hymn "Tu Es Petrus" was rendered by the choir, the solo being assisted by Miss Margaret Walsh and William Gooding. The responses were sung by the sanctuary choir of 60 voices under the direction of Mr. Shalen of Boston.

The sermon on "The Sanctity of the Catholic Church," the text being words of the Apostles' Creed: "I believe in the holy Catholic church" was delivered by Rev. Fr. James Cooke of Taunton, Mass., one of the leading orators of the Catholic church in America. Lack of space forbids the publication of the eloquent discourse in its entirety and the following abstract hardly does justice to the preacher:

THE GRAND JURY

May Not Report on the Richeson Case Until Tomorrow

BOSTON, Oct. 30.—It was believed that when the grand jury, which has been considering the government's case against the Rev. Clarence Richeson for the alleged murder of Avis Linnell, took a recess for luncheon today that the end of the taking of testimony was in sight. Indications were that the last witness would be heard before adjournment late this afternoon or this evening. Whether a report would be made at that time or withheld until tomorrow morning was uncertain. The latter is the more probable time. Nearly a dozen witnesses were heard between the time of opening this morning and the recess this afternoon. These persons were largely from Cambridge and either connected with the Immanuel Baptist church, where Mr. Richeson was pastor, or neighbors on Magazine street.

Edward Watson, treasurer of the Immanuel Baptist church, made an unsuccessful attempt to see Mr. Richeson at the Charles street jail this morning. He lacked the necessary permit. Thence he made his way to the courthouse, where he secured, it is understood, a pass from Sheriff Fred P. Seavey, which would allow him to enter the jail. He would not say when he expected to visit the pastor.

Mr. Watson went immediately to Charles street jail and presenting his permit was allowed to see the prisoner. The object of his visit could not be learned but it was understood that it had some connection with Mr. Richeson's pending resignation from the church.

Mr. Richeson received words of cheer from a fellow minister of high local standing today when he was delivered a letter from Rev. C. A. Fulton, pastor of the Dudley Street Baptist church and president of the Boston Ministers' conference. Mr. Fulton, when seen at

PULITZER IS DEAD PROF. ZUEBLIN SPOKE

Proprietor of New York World Passed Away on His Yacht Talked on the Religion of the Common Life

NEW YORK, Oct. 30.—Joseph Pulitzer, proprietor of the New York World, died at heart failure yesterday near Brunswick, Ga., where he had a on board his yacht Liberty in the harbor.

Aside from a heavy cold which had prevented him from taking his usual drive in Central park for a day, Mr. Pulitzer was in his usual health when he left this city. He was accompanied by his younger son, Herbert, left New York on Friday, and the yacht put

Prof. Charles Zueblin was the speaker at the "special form" series of meetings at Grace Universalist church last night. His subject was "Religion of the Common Life," and he said that religion is the endeavor of man to express his relation to the infinite.

"The thoroughly scientific man, today," he said, "does not pretend to define God; while the old-fashioned negro preacher, who may never have been to school, can give a minute description of God. Intellectually, there are multitudes of people among us who know all about the infinite because they know so little about anything else."

"The person who has the religion of the common life, is the person who can hold religious fellowship with any other person, of any other faith. Any one who is without that may have a well defined theology and a religion that satisfies him, but he does not belong to the 20th century. Every insignificant little piece of dust in this enormous universe, that is called a man, has its own relationship to the infinite."

"Some people are temporarily altruistic, and others are temporarily egoistic. One naturally thinks of himself, and the other more easily thinks of others. But the altruist may be an impressionable, soft-backed philanthropist, while the egoist may carry through a tremendous reform, by the power of his conviction. So it is with the optimist and the pessimist. Optimists are not blind to evil, pessimists can see good; but it is easiest for each to see what is naturally his temperament. When a pessimist has overcome his tendency, he will have seen enough of the evil of the world to want to overcome it. The optimist, on the other hand, completely lets things go because he believes we are living under the best possible conditions. People are also temperamentally rationalistic or emotional. We Americans are much more emotional than we allow ourselves to be, because we have been brought up under the blight of patriotism."

"The combination of these different temperamental characters is different in every soul, and therefore each individual reacts upon the individual and the finite differently from any other. Therefore, everybody must work out his own salvation. Other wise he has not what may be called a religion. Most people are born into a church or a doctrine, and they are too inert to change, or have too little character to change. We must all be born again; there must come, some-

into Charleston. His illness proving to be serious, a telegram was sent to his wife, who left New York for Charleston Saturday and arrived shortly before he died. The body will be brought to New York today, when funeral arrangements will be made.

Drawn by Civil War

Joseph Pulitzer was born in Budapest in 1847. His father was a business man, supposedly of means, but when he died, while Joseph was still a boy, the estate was found to be small. That he might not be a burden on his mother, Joseph determined to enter the army, but was rejected because of a defect in one of his eyes. In Germany, France and England he met the same result. The Civil war was in progress in this country and he decided to come here. He landed at Castle Garden in 1864, practically penniless.

He knew nobody in this country and could speak only a dozen words of English. Within a few days, however, he met a fellow-countryman and was enrolled and served to the end of the war in the Lincoln cavalry, as the German regiment was called, part of the time under Sheridan. When he was mustered out at its close in New York city he was still ignorant of English. With an American companion he went to a railroad ticket office, there saw all the money they had between them and asked for passage as far west as their capital would take them. It was thus by chance that Mr. Pulitzer went to St. Louis.

First Enterprise Failed

After alternating as a storekeeper and a freeman on boats plying between St. Louis and New Orleans for some time, he had money saved to start in business as a boss stevedore in St. Louis. This was his first enterprise and it was not a success. Its failure left him again penniless and his strength diminished.

He went from one humble employment to another until a St. Louis politician, noting his ignorance of American ways, induced him to take a post that no well-informed person would have undertaken. In order to have the charter of the St. Louis & San Francisco railroad recorded in each county of the state, it was necessary that the papers should be personally filed with the clerk of every county, and it was expected that the man engaged in the task would certainly lose his life. He completed the task and returned to St. Louis still in ignorance of the risk he had run.

This experience marked the turning point in his early struggles. It gave him a knowledge which no other man then possessed of the land conditions of every county of the state, and real estate men found his services invaluable. Even during his earlier vicissitudes he had been a voracious reader and eager student and had already begun to study law. In 1868, years after he landed at Castle Garden, he was admitted to the bar. He practiced for a short time, but the profession was too slow for him.

Place in Journalism

He was bursting with ambition and energy, and found it impossible to confine himself to the tedious routine of a young attorney. He looked about for some manner of life in which he could bring all his suppressed energies into immediate play. He found it in journalism. He became a reporter for the Westliche Post, a German paper edited by Carl Schurz.

That was in 1868, and before the year was over he had risen to city editor and later to managing editor. Still later he became part owner of the paper. In the meantime he had begun taking an active part in national and local politics. In 1880 he was elected to the Missouri legislature, though but 22 years old and only two years after he had landed here penniless and ignorant of the language.

Why is the soda cracker to-day such a universal food?

People ate soda crackers in the old days, it is true—but they bought them from a barrel or box and took them home in a paper bag, their crispness and flavor all gone.

To-day there is a soda cracker which is the recognized staple — Uneeda Biscuit.

Uneeda Biscuit are the most nutritious food made from flour and should be eaten every day by every member of the family from the youngest to the oldest.

NATIONAL BISCUIT COMPANY

time, a transformation within, which means that his personality has worked out the relationship to the infinite."

In conclusion Prof. Zueblin said: "The authority of Jesus is the authority of a whole life in harmony with nature and truth, regardless of theological belief. 'The religion of the common life is a religion that can come to anybody, in any ecclesiastical organization or outside of any ecclesiastical organization, who relates himself to the universal and the ultimate and the infinite, described in any terms or in no terms. Some day we shall so organize our nation that we shall have a national expression of religion. It will not be a state church, but every act of ours will be an expression of religion. Every time we vote, it will be an act of religion. Until religion so expresses itself, it will simply mean names and formulas, and the symbols and rituals. A living faith is more important than any special faith. You may believe in Mormonism, in single tax, in socialism, or even in the republic or democratic party, and still be religious. You may have a religion all by your self, that nobody else can accept, and if it makes you holy it is religion. You may belong to the most numerous sect in existence, and follow all of its tenets, and if it is not vital, it is not religion."

First Universalist Church

At the First Universalist church, Sunday night, there was a special musical service and a short sermon by the pastor. The musical service was given by a soprano soloist, Miss Evelyn Blair of the Columbus Avenue Universalist church, Boston, and a tenor soloist from the same church, Mr. John Daniels.

The service opened with a solo, "My Redeemer and My Lord," by Dudley Buck, sung by Miss Blair. Mr. Daniels sang "Testis" by the choir. Then Miss Blair sang for the offertory "Gloria to Thee," by Briggs and for the ceremony Miss Blair and Mr. Daniels sang "Love Divine" by Stricker.

The pastor, Rev. C. E. Fisher, D. D., preached a short sermon on the "Golden Vision of St. Paul."

Formed Boys Council

A meeting was held at the Y. M. C. A. rooms Sunday afternoon for the purpose of forming a boys council for the "Men and Religion" movement for Lowell. Officers were elected, chairman of committees were appointed, and a committee consisting of Messrs. Manning, Langley and Gaudy were elected to plan for a banquet and meeting of all older boys who represent their churches, the pastors and superintendents of the Sunday schools, when men who are cognizant of the methods of work to be used in the campaign will be secured to speak, and instruct the boys. The officers of the "council" include, James Grant of the Pawtucket Congregational church, as president; Harlan Foster, of the Kirk Street church as vice president; Geo. Wilkins of the First Baptist church as secretary; Philip Thissell of the Fudge Street Baptist church as treasurer; and five boys and men as chairman of five different activities which are on the program of work. These include Bible study, Frank W. Callahan; missions, Howard Hanks; social service, Nelson Chase; evangelism, "Chatter Box" boys; work, Mr. B. W. Alder. The next meeting will be held at the same place on Sunday afternoon November 12, at 4 o'clock, when every church is asked to send one man and five boys to make the work a success.

PRIZES AWARDED

By the Billerica Improvement Association

The annual distribution of prizes offered by the Billerica Improvement association for the best kept grounds, gardens, etc., took place in the town hall in Billerica Saturday night. There was an unusually large attendance, the hall being taxed to its capacity.

The exercises included a moving picture exhibition. Rev. J. Harold Dale awarded the prizes and the pictures of the prize winning premises were thrown on the screen. The winners were:

Best kept premises: First, William

REV. J. HAROLD DALE, Who Awarded the Prizes.

Lions; second, Raymond Thayer; third, Mary J. Hayes.

Vines: First, Warren Metcalf; second, not awarded; third, Russell Turner.

Window and porch boxes: First, Raymond Thayer; second, Warren Metcalf; third, George Dimock.

Flower gardens: First, Carl Schult; second, Ellen Schult; third, Raymond Thayer.

Additional prizes on account of good work: \$1, Mary Hayes; 50 cents, Laura C. Bohann; 50 cents, Ida H. Foster.

Vegetable gardens: First, George Dimock; second, Nell E. Foster; half third, George H. Samart; half third, Elmer Hatch.

Previous to the exhibition the annual meeting of the association was held and the following officers were chosen for the next year: President, Warren H. Manning; secretary, Hubert F. Jacobs; treasurer, T. Frank Lyons.

At the meeting a vote was passed, extending the support and sympathy of the Billerica Improvement association to the Fairhaven towards obtaining legislation against the obnoxious bill boards of that town.

Report of committee on home and school grounds submitted the following report:

"As has been the custom circulars were distributed to the scholars in October, 1910, giving directions for the planting and care of bulbs, and offering two prizes in each class for the best display of blossoms in the spring and also offering a special prize of \$1 for the displays that seemed worthy."

Four hundred and twenty orders of 125 bulbs were sent in by 106 children and sales of 1533 bulbs were made to members of the association. The total number of bulbs sold was 4685.

The flowers outside last spring were not so good, but those planted in pots were very good, showing that the bulbs were good and that the weather conditions out of doors were unfavorable for best results. The display of flowers in the schools was only fair owing to the children not having the bulbs in bloom at the same time. It has been suggested by the teachers that the committee, two or three months previous to the display, fix a date on which the flowers shall be displayed for the competition.

The judges for awarding the prizes were Rev. J. Harold Dale and Mr. Sidney Bull for all the schools other than the Talbot and Rev. Charles H. Williams, Mrs. George Whiteside and Miss Harriet S. Rodgers for the latter.

Circulars were also distributed in March, 1911, offering flower seeds at one cent a packet, and orders were received for 1671 from 146 children. The seeds for the summer competition were purchased of James Vick & Sons of Rochester, N. Y. The same prizes were offered as last year for best kept premises, vines, window and porch boxes, flower gardens and vegetable gardens, 33 entering the competition.

The names of the prize winners will be given out by the chairman of the board of judges, Rev. J. Harold Dale, Rev. Charles H. Williams, Mrs. Frederick

MEMORIAL SUNDAY TO BE A CARDINAL

Annual Pilgrimage of L'Association Catholique Made Yesterday

Archbishop O'Connell Named as Member of the Sacred College

The annual pilgrimage of L'Association Catholique held at St. Joseph's cemetery yesterday afternoon was as in the past years a marked success as far as the dignity of the event goes. The service held was most impressive and was attended by over 5000 people, including the local French guards and over 300 members of the society.

The ceremony consisted of a procession from the C. M. A. C. building in Pawtucket street to St. Jean Baptiste church, where a "Libera" was sung, after which the party boarded special electric cars which conveyed them to the burying grounds, where an eloquent sermon was preached by Rev. Fr. Watelle, O. M. I. There again a "Libera" was sung and taps were sounded as well as a volley of shots fired over the graves of the deceased members of the guard.

Rev. Fr. Andibert, O. M. I., while an augmented choir under the direction of Dr. George E. Caisse rendered several beautiful funeral hymns. Mr. Arthur J. Mariel presiding at the organ.

At the close of the service special cars were on hand and the large congregation was conveyed to the city limits in Corham street from where a march was started to the grave yard. Over 5000 people gathered around the graves of the late Fr. Carlo, Paurier and Campeau, O. M. I., where Rev. Fr. Watelle, O. M. I., pastor of St. Jean Baptiste parish, mounted on a temporary platform delivered a strong sermon on death, judgment day and the lessons to be derived from this annual pilgrimage. The preacher made a deep impression on his listeners and his address was closed with the singing of the "Libera" by a quartet of men from St. Jean Baptiste church choir, Rev. Fr. Ouellette, O. M. I., chaplain of the association officiating.

A squad of picked men from Garde d'Honneur then came to the front and fired three volleys over the graves of the three deceased Oblate fathers. These men being: First Sergeant Emile Boudreau, Sergeant L. Tetreault, Corporal Charles Breton and Corporal William Lussier. The men then proceeded to the grave of the late Mose Cassette, a former captain of the guard, where again a volley was fired and taps were sounded. This closed one of the most imposing ceremonies in the history of the C. M. A. C.

The committee in charge of this affair was composed of the following members: Joseph Payette, chairman; George Simard, Adolphe Brassard, Adolphe Payette, Eugene Beaulieu and president Xavier Delisle, ex-officio.

FOUR LIVES LOST

Occupants of Tenement Killed by Gas

BRIDGEPORT, Conn., Oct. 29.—Attracted by the odor of illuminating gas yesterday, Tidor Braluis, who lives on the first floor at 271 Helen street, went to the second floor of the house and there on the floor of a bedroom found John Huchnick, 49 years old, lying on a bed, dead; his wife, Annie, 45 years old, dead on the floor, and in a room across a hall he found a nephew, John Prevorsek, 19 years old, and a boarder, John Ketterer, 22 years, lying on the floor, also dead.

At the foot of the hall stairway leading to the second floor a sock partly unspun and from which gas was escaping, was found. The sock was one that could be easily turned, but how it came to be turned on the authorities have not ascertained.

In police court last Wednesday, the woman, whose son was sent to the reformatory, threatened to commit suicide if her son was not released, but it is not thought that she had anything to do with turning on the gas.

SEEKS HUSBAND

WOMAN THINKS HE IS IN THIS CITY

Mrs. S. I. Curtis of San Diego, Cal., is anxious to learn the whereabouts of her husband whom she left in this city a number of years ago. In a letter sent to Supt. Welch she states that she has been warned to write to her husband, but that she does not know where he is. She says her brothers have informed her that her husband is still in Lowell and enclosed in the letter is the following which she requests be published in the local newspapers: Please find my husband, Mr. Samuel I. Curtis. I left him some years ago and came west, but God has warned me that he loves me. Yet I will go back to him if he will send for me to go.

Mrs. S. I. Curtis, General delivery, San Diego, Cal. Care Mrs. Nellie Clark.

BOSTON, Oct. 30.—Messages of congratulation began to pour in on Archbishop O'Connell yesterday, on the definite announcement from Rome that Pope Pius X. had selected him to become a cardinal at the consistory called for Nov. 27. His mail today will undoubtedly be a heavy one.

Doubt was expressed in some quarters yesterday as to the official nature

of the announcement, but later, proving erroneous.

It can be stated definitely that this announcement is correct. Archbishop O'Connell is now chosen to become one of the princes of the church. This was made certain yesterday when it was learned that Mr. Kennedy, rector of the North American college in Rome, successor to Archbishop

time next week, in ample time for the cardinal-elect to make preparations to leave Boston for Rome, so as to be present at the consistory at which the Pope will read the proclamation.

With his elevation to this office Cardinal-elect O'Connell will not necessarily give up his residence in Boston. Like Cardinal Gibbons, he will still retain the archiepiscopal see in his home diocese and will make his residence here, administering as before the affairs of the archdiocese and assuming the added dignity and duties of the new office.

Cardinal-elect O'Connell received the news yesterday quietly. He passed the day as he passed other Sundays, with the difference perhaps of being a little more secluded. Those who know him best look that he prefers to avoid receiving any extensive expressions of congratulation and that he naturally desires to avoid making any statement until at least the official announcement arrives from the Vatican.

Followed Regular Routine

In accordance with his custom, the cardinal-elect got up early yesterday morning, spent the early morning hours in the private chapel at his Grady street residence, said mass and spent some time in meditation and prayer. Then he set out for the cathedral to assist in the celebration of the regular solemn high mass.

In expectation of his arrival, a crowd gathered on Union Park street, near the entrance to the vestry. He got out of his car, hastened into the vestry, where he was greeted by Mr. J. M. Spillane and the other clergy of the cathedral, and put on his robes for the mass.

When the procession of altar boys, members of the sanctuary choir, priests and cardinal-elect moved out to the altar, there was an unusually large congregation. Many had been attracted by the press announcement of the honors conferred on the prelate, and they showed exceptional interest in his appearance.

At the end of the mass the cardinal-elect was driven back to his residence and there he passed the rest of the day receiving only a few callers, including some of his closest friends and prominent clergymen of the archdiocese, among them Bishop Anderson.

The arrival of the official announcement from Rome will be the signal for the cardinal-elect to make immediate preparations to leave Boston for a short time. Church rules require that the recipient of the dignity of the cardinalate go to Rome for the official proclamation. As the letter will most probably not reach Boston until about the 7th or 8th of November and the consistory has been set for the 27th of that month, but little time can intervene between the receipt of the announcement and the departure of the prelate for the holy city.

Three Will Sail Together

He will probably communicate with Cardinal-elect Farley of New York and Cardinal-elect Falconio of Washington and arrangements will be made for the three to meet in New York city and sail on the steamer. It is a ten days' trip to Rome and their departure will have to be an early one.

Once in Rome they will find the other 14 distinguished churchmen who

MURDEROUS ATTACK

Man Tried to Wipe Out an Entire Family

PARKERSBURG, W. Va., Oct. 30.—Carroll L. James, a railroad conductor of this city, shot and killed his father-in-law, William Pritchard, probably fatally wounded his mother-in-law, slightly injured his wife and committed suicide yesterday at Parkersburg, Ritchie county, W. Va.

James broke into the Pritchard home while his victims slept. He made no effort to harm his 4-year-old daughter, who occupied the bed with her mother and grandmother.

The tragedy follows a series of sensational occurrences in this city about six weeks ago when James shot Sergeant Rubin of Fairmont, W. Va., a fellow railroadman, whom he alleged he found with his wife at the James home. Rubin's injury was slight.

James brought suit for divorce and Mrs. James brought a counter suit. During the taking of depositions in the suits Mrs. James gave evidence which resulted in the arrest of her husband and an express messenger on the charge of conspiracy to defraud the United States Express company.

James, it is said, became much embittered against his wife and family and threatened that he would "kill the whole Pritchard tribe."

He forced his way into the Pritchard home at Parkersburg early yesterday

morning and entered the room occupied by his wife, his young daughter and his mother-in-law. Without words he began firing at the two women.

One bullet struck Mrs. Pritchard in the arm and another struck Mrs. James in the hip. James then stepped into the next bedroom and saw his father-in-law rising from bed.

He fired and the bullet passed through Pritchard's mouth, killing him instantly. Returning to the other room James found his wife gone but his mother-in-law still there. He shot her twice more, the bullets lodging in her left foot and right arm.

James then went in pursuit of his wife and came upon her a short distance from the house. He had two revolvers, but the cylinders of both were empty so he caught his wife by the throat and choked her.

As the woman sank to the ground with her young child, holding to her skirts crying, James beat and kicked her. He fled only on the approach of a neighbor, who heard the child's cries.

James ran back to the Pritchard home, reloaded one of the revolvers and killed himself.

A coroner's inquest was held at daylight and a verdict of murder and suicide was returned. Mrs. James and Mrs. Pritchard were brought to a hospital here.

JARVIS FOUND GUILTY

He Was Sent to Reformatory for Breaking and Entering

There was an unusually large number of offenders arraigned before Judge Hadley in police court today, there being 39 in all, the majority of whom were charged with drunkenness. Despite the fact that there was a long docket the cases were disposed of with great rapidity and the session lasted but a little over an hour.

Sent to Reformatory

Oscar Jarvis was charged with breaking and entering the store of Samuel Pike in Middlesex street on August 15th of last year and stealing \$1 in money therefrom. After the testimony in the case, was heard Jarvis was found guilty and sentenced to the Massachusetts reformatory.

Leonard Gendreau, a young man, testified that he was in the employ of Mr. Pike on the 17th of August. At that time the store in Middlesex street was open only on Saturdays, but during the week he had occasion to visit the place to either leave goods or deliver them to customers who had left orders. While not working in the store

he labored on the farm in Tewksbury. On the 17th of August he had sold a number of dozen of eggs and upon arriving at the store placed \$4.88 in one of the registers. Later when he called at the store he found that the skylight in the roof had been broken, two boards had been removed from the ceiling of the store and the money in the cash register had disappeared.

Daniel P. Pike, son of the complainant, testified to seeing Gendreau place the money in the cash register.

Patrolman John H. Clark, who arrested Jarvis in Middlesex street Thursday night, said that after learning of the break he made an investigation and as a result of what he learned he suspected Jarvis and three other young men, but subsequently learned that the quartet had left the city. He saw Jarvis Thursday night and when questioned he said Jarvis said he was outside the market while the others were inside and that all he got out of the haul was some food and his fare on

well as those of the French guards gathered at the club house at noon and at 1.15 o'clock the signal to start was given. The formation of the parade being as follows: Chief Marshal Joseph Payette, Lowell Independent band, A. G. Cadets, Major Arthur Lamoignon in command, Garde Frontenac, Captain Albert Bergeron and Lieutenants Horace Deslites and Alphonse Vallierand in command, Garde Jacques-Cartier, Captain Joseph L. Pigeon and Lieutenants George Gaudette and Alfred Grenier in command, Garde Sacre-Coeur, Captain George Labrie in command, Garde d'Honneur, Captain Joseph L. Lamoignon and Lieutenants Albert E. Jean and Nelson E. Phillips in command. Then came about 300 members of L'Association Catholique headed by Marshal George Simard.

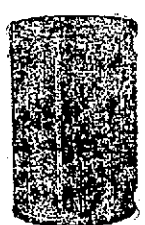

The procession slowly marched to St. Jean Baptiste church, where the large temple was already thronged with people. The march concluded with the main altar. The "Libera" was sung by

CHARTER GRANTED

Lowell Men Interested in Knitting Mill

A charter has just been granted to the Canadian Knitting company, limited, of Hamilton, Ontario, the incorporation being John M. Harris, Robert B. Harris, Thomas J. Stewart, M. P., Robert R. Simpson, W. H. Macmill, Francis X. Monette and George Nutting. The company is capitalized at \$300,000, and is now erecting a knitting mill, its specialty work to be the manufacture of ballroom underwear.

Two members of this company, Messrs. Monette and Nutting are both well known in this city, where they lived for a number of years, previous to their going to Hamilton, Ont. While in Lowell, the two young men were both employed in the knitting department of the Lawrence Mfg. Co. They left Lowell about three years ago and they have been very successful in the Canadian city. Their many Lowell friends will be pleased to learn of their prosperity.

FUNERALS

McGUGAN—The funeral of the late Owen McGugan took place this morning at 8:30 o'clock from his late home, 48 Walnut street, and was largely attended by his relatives and friends. The funeral cortege proceeded to St. Peter's church, where at 9 o'clock a solemn mass of requiem was sung by Rev. Daniel J. Heffernan. The choir sang the Gregorian mass. At the offertory Miss Gertrude Ketcher sang "O Meritum Passionis" and after the elevation Mr. James B. Donnelly sang "Pie Jesu." As the remains were being borne from the church the choir sang "De Profundis." Mrs. John W. McKennedy presided at the organ.

Among the many floral tributes were: A large wreath of galax leaves and chrysanthemums, from the employees of P. T. Putnam & Son; wreath of asters and chrysanthemums inscribed "At Rest," Catherine and Grace McEvoy; spray of palms and asters, John Tyrell; wreath, Gilmore family; and a spray of chrysanthemums from Mrs. Halpin and daughters, Margaret and Ruth. The bearers were Daniel Cosgrove, James Sheridan, James Hill, George Kinney, Michael Reynolds and John Carr.

Burial was in St. Patrick's cemetery, where the final prayers were read by Rev. Fr. Heffernan, Undertakers M. J. McDonough Sons had charge of the arrangements.

BURNS—The funeral of Elizabeth Burns, beloved child of William and Maria Burns, who died this morning at the home of her parents, 118 West Sixth street, took place this afternoon at 3 o'clock and was well attended. Burial was in the family lot in St. Patrick's cemetery under the direction of Undertaker Thomas J. McDonough.

ATKINSON—The funeral of Mrs. F. Ernest Atkinson took place yesterday at 2:30 o'clock, from her home, 17 Hampton avenue and the large attendance of relatives and friends bore silent tribute to the love and esteem for the deceased and sincere sympathy for the bereaved family. Rev. A. St. John Chamber conducted the services and Mr. William J. Wilson sang sweetly, "Lead, Kindly Light," "Pass to Peace," and "On the Resurrection Morning." The floral tributes were many and beautiful and included: Pillow of roses and violets inscribed "Wife," from the husband; pillow, "Our Florence," Mr. and Mrs. A. E. Atkinson and daughter; massive pillow inscribed "Sister," Mr. Monroe Washer and Mr. Walter Osgood; pillow inscribed

JUDGES WHO WILL SIT IN STEEL TRUST CASE HAVE LONG CAREERS

TRENTON, N. J., Oct. 30.—The steel trust case will be heard by three United States circuit court judges. These are Judge William M. Lanning of this city, Judge George Gray of Wilmington and Judge Joseph Buffington of Pittsburg. The request that three judges sit was made by the government upon the ground of the public importance of the litigation. They are the judges who decided the powder trust case ordering the dissolution of that organization. Judge Gray was born May 4, 1840. He is a

From 1879 until 1895 he was attorney general of Delaware and obtained the conviction of the Baltimore and Ohio railroad for violating its charter obligation. He is a democrat and has served two terms in the United States senate. In 1902 he was appointed by President Roosevelt chairman of the anthracite coal strike commission, which brought about a settlement of the great mine strike in the hard coal regions of Pennsylvania. Judge Gray was chosen arbitrator of the Alabama coal strike commission in August, 1903, and he was also arbitrator in a dispute between the Illinois mine operators and their workmen. In both of these instances his decisions were accepted by both sides and resulted in sending the men back to work. Judge Buffington is a republican and is fifty-six years old. He has been on the federal bench since 1892.

She Dreaded Future

SO HAPPY NOW HARDLY KNOWS HERSELF

Mrs. J. Flanagan, of 11 State street, city, made the following statement recently in connection with "Tona Vita," the new tonic that is accomplishing such remarkable results in Lowell.

Mrs. Flanagan said: "I have been sick for some time past. I doctored almost continually and had taken medicine until the thought of it made me ill. I had stomach and nerve trouble and I grew worse all the time until I was all run down."

"I had not had a good night's sleep for some time. Just to smell food cooking nauseated me, and when I did eat anything it would turn into a hard lump and distress me for some time."

"I had dull headaches, and dizzy spells and felt so tired that I hated to be on my feet. I was dreadfully nervous and so depressed in spirits that I had a dread for the future."

"I was recently in the store of the Hall & Lyon Drug company, and saw a crowd of people up at the counter where 'Tona Vita' is being sold. I had no faith in any medicine to help me any more, but I saw so many people buying this preparation that I went up to one of the men there and he gave me a sample of the medicine. I took it and that night I slept better than for a long time. The next day I went back and got the medicine."

"I began to improve from the first day I took it, and now feel like a new person. I am so happy I hardly know myself. I don't have an ache or a pain and feel strong once more. The miserable nervousness and depression is gone. I sleep and eat well and my food agrees with me. It seems like a miracle that I am so changed in such a short space of time. I can certainly recommend this tonic, 'Tona Vita,' also the assistant remedy Lee's Rhubarb Laxative."

Mrs. Flanagan is only one among many hundreds who have testified to the good qualities of "Tona Vita." Such statements should prove of unusual interest to those who are suffering with similar troubles and there are thousands of them in all the large cities like Lowell, say the specialists who are here introducing the new tonic.

"Tona Vita," will relieve a sour stomach and indigestion, as well as remove a nervous debilitated condition of all organs of the body, whether man or woman. It is a continued one of these specialists, "It is a harmless, pleasant tasting preparation, though each demonstration how quickly responsive the preparation is to its good effects."

The "Tona Vita" specialists are at the Hall & Lyon drug store from 9 a. m. to 8 p. m. Those who fail to have the nature of the most miserable and all-too-common condition of the body explained and the value of a remarkable remedy demonstrated to them will have indeed missed a rare opportunity. This new tonic positively contains no harmful drugs.

Sylvia A. Whitney took place yesterday at 2:30 o'clock from her home in Chelmsford Centre, Rev. George F. Kennett officiating. Mrs. F. L. Roberts sang appropriate selections. The bearers were George Howes, Howard Adams, C. C. Wheeler and Augustus Sturtevant. The services were largely attended by relatives and friends and the floral tributes were many and beautiful. Burial was in the Edson cemetery. C. M. Young in charge.

KINGSTON—The funeral of Mrs. Caroline F. Kingston took place from the funeral rooms of Undertaker J. J. Currier Co., 53 Front street, on Saturday afternoon at 2 o'clock. The services were conducted by Rev. S. W. Cummings, pastor of the First Baptist church, and the burial was in the Edson cemetery.

KAY—The funeral of Leonard Kay, infant son of Harry and Alice Kay, took place Sunday afternoon at 2 o'clock from the home of his parents, 83 Swift street, and was largely attended. The services were conducted by Rev. John T. Ullom, pastor of the Lawrence Street Primitive Methodist church. Burial took place in the family lot in the Edson cemetery, where the committal services were read at the grave by Rev. Mr. Ullom. The funeral arrangements were in charge of Undertaker John J. O'Connell.

FALLOON—The funeral of Alice Falloon, infant daughter of Frederick L. and Alice, took place Saturday noon. The body was sent to Clinton, Mass., for burial in St. John's cemetery, by Undertakers J. F. O'Donnell & Sons.

PLEASANT SURPRISE PARTY

A very enjoyable event took place Saturday evening at the home of Mr. and Mrs. George Webber, 76 West Sixth street, when a number of their friends called and surprised them by the presentation of a beautiful student lamp. The occasion was the seventeenth anniversary of their married life. Although taken completely by surprise Mr. Webber in behalf of himself and his wife responded in a very pleasing manner to the presentation speech which was made by Miss Jessie V. White. During the evening refreshments were served and a musical program carried out, including piano selections by Mr. Jas. Kershaw; vocal selections, Mrs. A. Kershaw; duet, Mr. and Mrs. Ernest Leach; quartet, Mr. Peter Healy, Miss Emily White, Mr. Fred Porter, Miss Mary White; comic songs, Mr. Duckworth. Mrs. Webber was assisted in serving by Mrs. Chas. Whitney, Mrs. Emmott and Mrs. Marsden. The happy couple were the recipients of many beautiful presents, including a guest towel, the hand work of Master Arthur Lyons. The party broke up with best wishes for Mr. and Mrs. Webber.

RUINS OF THE LOS ANGELES TIMES BUILDING WILL BE SHOWN TO JURY

LOS ANGELES, Cal., Oct. 30.—The iron girders and other ruins of the Los Angeles Times building, destroyed by fire following an explosion which cost a score of lives, have been piled in a heap in the outskirts of the city and will be inspected by the jury that will hear the evidence against the McNamaras. It is expected that expert testimony will be introduced as to whether the iron was twisted by an explosion of gas or of dynamite. The state is well represented in the present trial of James B. McNamara. District Attorney Fredericks has as helpers A. F. Veitch, Ray Horton, W. J. Ford and A. J. Hill.

BEN GETS THE "CUE" TO KEEP QUIET!

THE TEXTILE BOYS

Given Their First Defeat of the Season

On Saturday the Lowell Textile school eleven received its first defeat of the season at the hands of crack Dean Academy team by the score of 12-0. The game was witnessed by a big crowd who expected to see the usual large score which Dean has been accustomed to run up whenever it has played Textile, but they were badly disappointed as the Lowell team showed by its speed and aggressiveness that it was not to be dealt lightly with.

The first half was decided in Textile's favor and the latter was prevented from scoring only on account of an untimely fumble. In the third period Dean came back strong and tore through Textile for long gains. After an exchange of punts Torney, the husky half-back of the Academy team, worked an end run of 15 yards to be followed in a few minutes by another of 30 yards, placing the pigskin within 2 yards of Textile's goal, and although they fought hard to stave off the score, Milken tore through the line for a touchdown. Wescott kicked the goal.

The fourth period was one of the most exciting seen in a game at Franklin this season, for the whole half was replete with fast plays and spectacular end runs. A touchdown was scored in Textile's favor after Torney had brought the ball to within five yards of the Textile goal by a series of pretty end runs. From the 5 yard line Torney managed to put the ball across the goal, on the third down. Wescott kicked the goal.

The three old Madder High school stars, Milken, Wescott, and Lucas played a fine game for Dean academy, while Shay, Hassett and Schofield excelled for Textile.

The summary:

Dean Academy	Lowell Textile
Lucas, lc	re Strauss
Gorman, lc	rt Thompson
Rossano, lt	rt Shay
Dimmick, lt	rg Kelsey
Stark, lt	rg Washburn
Chapman, lg	c Dover
	lg Hassett
	lt Crane
	lt Taft
	qb Hamilton
	qb Schofield
	rb Kelsey
	fb Lamond

Score: Dean academy 12, L. T. S. 0. Touchdowns: Milken, Torney. Goals from touchdown: Wescott (2). Punt: Judge. Time: two 12 and two 10 minute periods.

PALMERS WON

DEFEATED THE ATHLETICS OF NORTH ANDOVER

The Palmers of this city defeated the Athletics of North Andover in the latter town Saturday afternoon by a score of 14 to 0. The Lowell team scored its first touchdown in the first period when McMahon blocked Lawler's punt and recovering the ball ran 15 yards for a touchdown. Fahy kicked the goal. In the second period Dowd, the fast little quarterback of the Palmers, ran 95 yards through a broken field for the second touchdown. Fahy missed in the kick for a goal. There was no scoring in the third period.

In the last period Dowd again proved his value by dropping a goal from the 25 yard line. Mooney and Cassidy played a fine game for the winners, while Lawler and Smith played well for the losers. A large crowd was present and rooted hard for their favorites. The Andover rooters making such a noise that at times it was impossible to hear signals. The Palmers are lighter than ever before, but have yet to be defeated or scored on. The lineup:

Palmers	Athletics
Connors, lc	re, O'Neill, Barry
Cassidy, lt	rt, Glynn
Lyons, lg	rg, Rilly

Score: Palmers, 14; Athletics, 0. Touchdowns: McMahon, Dowd. Goals from touchdown: Fahy. Goal from field: Dowd. Referee: Quinn. Umpire: Mahan. Line men: Sweeney and Mahan. Time: 8-minute periods.

BOXING GOSSIP

The match tomorrow night at the Armory A. A. Boston, is virtually a championship contest. The principals, Billy Papke of Illinois and Bob Moha

of Milwaukee, are certain to put up the kind of a bout that appeals to the followers of boxing.

Billy Papke is considered the champion in the middleweight division. Bob Moha is one of the most dangerous contenders for the title that Papke has ever been matched with. His only showing in this city amazed the spectators. He is strong, clever, and a good hitter. He never backs up from an opponent.

Papke's opponents in this part of the country lacked some of the good qualities of Moha. They could not seem to withstand the onslaught of the "Illinois terror." In Moha he will find a boxer who can stand any kind of a grueling contest, and who is exceptionally clever.

The semi-final bout between Gilbert Gallant of Chelsea and Freddy Duffy of Jamaica Plain will provide plenty of exciting boxing. The men are direct opposites in style as well as build. Duffy is clever, while Gallant is exceptionally strong.

The other bouts are between Ed Bennett of Quincy and Yankee Evans of Brockton; and Frankie O'Connor of Boston and Steve Kennedy of Lawrence.

The bouts this week are:

MONDAY

Mark Conley vs. Jack O'Neill, Westfield.
Pacley McFarland vs. Al Dewey, Wilkesbarre.
Jack (Ewin) Sullivan vs. Tony Ross, Youngtown.
Willie Lewis vs. Jeff Doherty, New Haven.

PRINCETON ELEVEN HAS LIVE ONE AT CENTER IN BLUENTHAL

PRINCETON, N. J., Oct. 30.—Head Coach Bill Roper says that in Bluenthal the Tigers have the leading center of the 1911 football season. The big fellow has all the qualities that go to make up the ideal middle man under

the new rules, says the coach. This Bluenthal's second year on the eleven. In 1910 he did fairly well, but this season his work has been brilliant. He is also some kicker and one of the most accurate passers of the ball in the country.

JOE WALCOTT

Will Box Sawyer Here Thursday Evening

Rather than offend the law as interpreted by the state police the Lowell Social and Athletic club suspended its meetings this fall until such time as it could secure permanent quarters of its own. While it had leased Matthews hall for a number of dates, the police were of the opinion that the quarters were not permanent under the meaning of the law. Hence the club suspended its sessions temporarily and after considerable trouble in getting a desirable location secured a new hall in the recently erected building at the corner of Market and Hanover streets. The new quarters are in a new and modern constructed building, well protected in case of fire and well lighted, heated and ventilated. Gymnasium apparatus and baths are being installed and the club will resume its session on Thursday evening of this week when for a main attraction it will have for the final bout two well known Lowell

favorites, husky Joe Walcott of Boston, ex-champion welterweight of the world, and Tom Sawyer of Portland, Me. There will also be two six round preliminaries and an eight round semi-final. The meeting as usual will be for members only and those who have not secured their new membership cards should do so at once.

TOM DOWD

SAYS NEW BEDFORD OWES HIM \$2000

With two new claims against the New Bedford Baseball association, Attorney E. T. Bannion representing ex-manager Thomas J. Dowd, filed a writ with the clerk of the superior court at Taunton, stating in detail the plaintiff's allegations in his action of contract against the baseball association. It is further alleged that the New Bedford club received \$150 for immediate delivery of "Paddy" Bannion to the Detroit club and Dowd claims his share of this sum.

In all Dowd alleges that the club owes him \$500 for unpaid salary and a little over \$1600 on commissions. Mrs. James Stuart Garvin of Gramercy park, New York city, wife of Capt. James S. Garvin, retired, U. S. N., late for New York yesterday. Mrs. Garvin and the captain have been visiting at the home of her sister, Mrs. N. E. Dunfee of Woodward avenue for the past two months. The captain sails for Italy in command of the United Fruit Co's new liner the "Esparita," with a ship full of passengers, on Nov. 1th.

JARVIS FOUND GUILTY

Continued

the electric cars to Nashua. The witness said that the skylight had been broken and that boards had been removed from the door of the tenement over the store. He also found a bar which had been used to pry the boards up. Patrolman Clark informed the court that one of the men who he was given to understand took part in the break after being out of town for several weeks suffered a cold from sleeping out doors at night and contracted pneumonia and coming back to this city died shortly afterwards. Patrolman Noonan corroborated Patrolman Clark's testimony relative to the arrest and conversation with Jarvis.

Jarvis, testifying in his own behalf, admitted that he was outside the store, but denied the greater part of Patrolman Clark's testimony relative to a conversation with him. Witness said he had money of his own and paid his own fare and his only reason for leaving the city was because he was out at work and thought he might secure employment in another city.

Alleged Illegal Sale

Hugh Ferguson, licensee of the St. James hotel in Middlesex street, was arraigned before Judge Bradley in police court this morning on a complaint charging him with the illegal sale of liquor on Sunday, October 22. He entered a plea of not guilty and immediately his counsel is engaged at the present time the case was continued till Nov. 8.

Supt. Edmund Welch of the police department is the complainant. It is alleged that Charles C. Wallace and William C. Lee, supernumeraries of the police department, entered the hotel on the date in question and that the former was served a glass of beer without having previously ordered food.

Present at a Game

There was a quiet little game of craps going on in Front street last night, but the police got wind of the evening session and shortly after midnight Patrolman John J. Sullivan and John P. Conlon, entered the building and making their way to a room gained an entrance and found seven men, six of whom were seated around a rug which had been placed on the floor. They were sent to the police station where they were booked for being present at a game on the Lord's day. They gave the names of Izat Ali, Charles Hussar, Harkis Hassan, Omar and Buched Ahamed, George Thomas and Harry Stanch.

In court this morning each entered a plea of guilty, but it was necessary to use Greek and Turkish interpreters in order to make the defendants understand. One of the offenders was an American. They were found guilty and each was ordered to pay a fine of \$5.

Game Was Interrupted Supt. Welch yesterday learned that

there was a big crap game in session in Indian Orchard in the vicinity of the car barn yesterday afternoon and the superintendent, accompanied by Court Officer Peter Crowley, drove to the scene and were almost on top of the players before they discovered who the visitors were. The players and those present, with the exception of Thomas Hughes, took to their heels and made good their escape. Hughes was brought to the station, where he was booked for being present at a game on the Lord's day. In court this morning he entered a plea of guilty to the complaint and a fine of \$5 was imposed.

Two Complaints of Drunkenness

Michael H. Tobin was charged with having been drunk on Friday and Saturday of last week. He entered pleas of not guilty. Supt. Bart Ryan testified that he went to Tobin's house in Mill street Saturday night armed with a warrant against him for drunkenness and when he found Tobin in the latter was intoxicated. Patrolman Garvin corroborated the testimony of his superior officer.

George Shields who lives in the tenement above that occupied by Tobin said that Tobin had been drunk and very boisterous and Friday night that the defendant went up the stairs and tried to kick in his door. Tobin denied that he had had anything to drink either Friday or Saturday, claiming that the man upstairs was the cause of the trouble. He said that Mr. Shields' sons had tried to murder him.

Tobin was found guilty and sentenced to 10 months in jail from which sentence he appealed.

Created Disturbance on Car

William Murphy and Samuel Greenwood pleaded guilty to complaints charging them with drunkenness. Patrolman J. H. Clark, the arresting officer, said that the street railway company had complained of drunken passengers on the North Chelmsford cars on Saturday night and he had been on the lookout for such people. He said that both Murphy and Greenwood were disorderly and that the former used considerable profanity. Murphy was fined \$15 and Greenwood was fined \$10.

Drunken Offenders

Michael Farron, who lives here and there and everywhere, tried to get on a North Chelmsford car, but the conductor refused to allow him to do so. Later the man was arrested. He was fined \$2.

James J. Burns, who is from out of town, was arrested Saturday for the third time within a month. He was sentenced to the state farm but appealed.

William F. Mead was found guilty but inasmuch as the court felt that he had been doing well for the past several months it was decided to give him another chance and Mead was placed in the custody of the probation officer for one year.

Catherine A. Hayes was sentenced to five months in jail.

Elmer E. Dearborn, Jacob Fuss, Dan-

iel Twomey, William Angus, John Draddy, Frank Johnson, John J. Corrigan and James O'Malley were fined \$5 each. Ten first offenders were fined \$2 each and eight simple drunks were released.

Disorderly Conduct

Frank O'Connor and James O'Rourke, while intoxicated, got into a fight in Central street, near the corner of Jackson street, Saturday night. They were placed under arrest by Lieut. Freeman and Patrolman Kelly. In court this morning they were each fined \$12.

MINSTREL SHOW

AND DANCE AT SACRED HEART HALL TOMORROW EVENING

The Holy Name society of the Sacred Heart church will hold a minstrel show and dance in the school hall in Moor's street, tomorrow evening.

The final rehearsal of the troupe was held yesterday afternoon. The latter includes some of Lowell's leading singers and minstrel talent. At yesterday's rehearsal they showed all the fine qualities of a professional company. Their singing of the latest popular songs and the chorus work were of a high order.

Mr. Henry T. Curry, who has had much experience in this line, is in charge of the performance, with Richard Noonan, of the Merrimack Square theatre, as accompanist.

Among the soloists are James E. Donnelly, John Doyle, Edward Shea, Henry Curry, George Daly and Master Francis Donaghy, the boy soprano. The end men are George (Babe) Rodgers, Charles A. Carey, Warren Rodgers and George Brennan. Charles Moore will be intercomedian.

The opening overture will be a great feature. It embraces a number of the latest song hits, especially secured from New York for this occasion. The end songs include "Alexander's Rag Time Band," "Oceana Roll," "Mysterious Rag," and "My Honey-Man." The latter will be given by Mr. Curry for the first time in this city and it is considered one of the best "coon songs" ever written.

The performance will start at 8 o'clock. After the show general dancing will be held.

COUCH ON FIRE

IT IS THOUGHT BLAZE WAS STARTED BY CHILDREN

An alarm from box 16 at 11:06 this morning, summoned a portion of the fire department to a slight blaze in a couch in a house in Mill street. The blaze was extinguished before any damage was done other than to the couch.

From what Chief Hosmer could learn two children were in one of the chambers making a bed and one of the girls finding a match scratched it on the side of the bed and the top few were to the couch and set it afire.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1910 was

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilote, pressman, of The Sun, before me, January 2, 1911. J. JOSEPH HENNESSY, Notary Public.

Only one week now remains in which to decide not only the fate of the political questions at issue in this campaign, but also the city charter question which for Lowell is one of prime importance.

SENTIMENT FAVORING THE CHARTER

Public sentiment is growing rapidly in favor of the new city charter. There is absolutely no sound argument against it. The charter may not be perfect in every detail but minor defects can be easily remedied. If the charter should be beaten it would probably be several years before another attempt would be made. We want a change now and we want it at the earliest possible moment. The working classes will especially be benefited by the new charter because by their organizations they will be able to apply the initiative, the referendum and the recall, and thereby get what they want.

PLAYING THE POLITICAL GAME

The governor's council has proved itself a very partisan body of late in dealing with the nominations submitted by His Excellency. The council refused to confirm the nomination of Lot McNamara of Haverhill for the board of arbitration and reconciliation merely because he had attained some distinction in democratic politics. The council has held up various other appointments, such as E. Gerry Brown to enforce the small loan law, Prof. Droppers for the railroad commission and several others. The council is thus playing a partisan role when it refuses to confirm men because they happen to be democrats. It is time that this effete body were abolished, for there is in this country no closer approach to the aristocratic idea than is found in the executive council, its membership and its methods.

DEMOCRATIC OPPORTUNITY IN STATE AND NATION

The republicans are making the strongest fight of which they are capable for the purpose of bringing this state back to the republican column for the effect it will have on the national election. The democrats, either from lack of discretion or over confidence, do not seem to consider this phase of the case. It is undoubtedly a fact that the action of Massachusetts on the head of the ticket in the coming election will have a strong effect in the national contest of next year. The democratic party being the one that wants to get into power needs all the help it can get from this source and should lay the foundation for a national victory in 1912 by a sweeping victory in the Bay State in 1911. It would be a great victory for Senators Crane and Lodge as for the standard republicans throughout the country if they could bring Massachusetts back into the republican column in the coming election. They are striving hard to elect Frothingham, a young man who, though personally cultured, has very little in the line of ability and experience to commend him to the office. On the other hand, Governor Joss is the successful business man whose experience in conducting the affairs of the state is worth a great deal. During the past year he has done much to put the business of the various state commissions upon a business basis. He has found a good deal of laxity in the departments he has overhauled, and were he given another year he could carry out the various reforms he has proposed, reforms that will fall by the wayside unless the governor be reelected.

The contest then is to be regarded in a two-fold light, first in regard to its benefit to the state, and second its bearing upon the national election to follow next year. It is time the democrats of this state awoke to the realization of what may happen, what they can do to redeem the country from a party whose identification with the trusts has become a byword in the nation. A change is needed, and the people will vote for a change unless the democratic party shows another great stroke of mismanagement for which it has been so long noted whenever it came face to face with the opportunity to win a great victory.

THE COMMISSION OF FIVE

Some opponents of the new charter plan say that five members is too small a number to handle the city's business, that it is smaller than the number of directors in a bank or large corporation. But the five men are on the job all the time, giving their attention to the city's business, disposing promptly of every question that comes up either as individuals in charge of certain departments or collectively in open meetings at regular intervals.

Five men working six days a week for the city are better than 36 meeting twice a month and leaving the departments to take care of themselves in the interim. Besides, they are absolutely under the control of the voters, one-fifth of whom can force an election for their recall, can force the enactment of measures demanded by the people or block unpopular measures until adopted by the people.

In order to recall any of the five men it is not necessary that he be convicted of any crime. If the voters believe him dishonest or unfaithful to duty, they have the right and the power to remove him.

Where then is the danger of allowing such a small number of men to take charge of the city's business?

The hint by certain opponents of the charter that it is easier to corrupt the commission of five under the new charter plan than a body of 36 men as elected under the present charter is absurd for the reason that the people would have absolute power over the five whereas they have no power at all over the 36 except on election day. The five men to form the municipal council under the new charter will be the servants, not the masters of the people. They will represent all the wards as an entire whole and they will serve the interests of each particular ward better than this has been done under the old system. For the democratic wards the change should be especially welcome, because in the common council they have always been subject to a republican majority. Now they are to be given an equal voice in the government of the city with the other wards, and they are being advised by office-holders and office-seekers that this is for their injury. Why should it be an injustice to any class of citizens to place them on an equality with every other class?

Why is it that when more power is being given the voters certain people tell us their power is being taken away?

A NEW REMEDY FOR SKIN TROUBLES

Everyone knows, or should know, that many skin troubles are not in the blood, but on the skin itself, and that external treatment is the most direct and rational way to effect a cure. The new remedy, Cadum, gives immediate relief in many skin troubles. It has helped so many people that there is no longer any doubt about it. Cadum contains an extract from the tree Jambou, an Oxycedrin, which acts so rapidly and effectively that the itching is relieved at once and the skin is soon restored to a soft, healthy condition. Cadum is good for eczema, pimples, sores, eruptions, rashes, itching and burning skin, chafings, etc. 10c and 25c, all druggists.

EDITORIAL COMMENT

Boston Post: The cheering announcement is made that the American Woolen company is now operating between 70 and 75 per cent of its machinery, the largest proportion thus far this year. This is good news for employees and for the communities in which the company's various mills are located.

And it also suggests that the depression in business that the mere prospect of tariff revision was supposed—and is still, by stand-pat republican orators—to create is not materializing to any great extent.

IDA LEWIS TIE

Newport News: It may not be generally known to people of this generation that among the honors which came to Ida Lewis Wilson was the giving of her name to an article of dress. Upon the occasion of one of the rescue, Miss Lewis was not dressed so warmly as one could wish when going out upon the troubled waters of the bay, but seeing the need for immediate action she seized a towel from the drying rack and, tying it loosely about her neck, jumped into her boat and pulled to the drowning men. The "Ida Lewis tie" soon became known all over the land and was popular for years.

CHIEF CHARGE AGAINST FOSSE

Fall River Globe: After all is said and done the gravest charge his opponent being against Governor Fosse, and his cardinal offense would seem to be, in reading between the lines the speeches the republican campaign orators have been discharging, that, in the first place, he had the audacity to have successfully aspired to executive chair which the republicans have regarded as their own by divine right, and that after having taken possession of it he should have violated established traditions by being governor in fact as well as in name. Such conduct in the opinion of the old time but now delirious political bosses of the state is scandalous and unpardonable.

"DRESS SUIT" SPLITS A TOWN

Lawrence American: The social and sartorial questions that have long connected themselves with the "dress suit" are again brought to public attention by an incident of Mr. Taft's homeward journeyings. At Aberdeen, S. D., a wealthy protest was made against the requirement that the "claw hammer" be worn at the dinner given the president.

One of the "reactionaries" took it so much to heart, that he bought up all of the \$10 tickets, and circulated them among farmers and others lacking socially correct evening clothes, so that the "progressives" were compelled to modify their requirement that the swallow-tail should be requisite for this function.

Persons who live in large cities where the "dress suit" is invariable for formal evening functions do not quite realize that this fashion is as yet adopted by but a small minority of our people. There are something over 15,000,000 voters in the United States, but we seriously doubt whether a census of "dress suit" owners would show 500,000.

THE THING TO DO

Salem News: The building commissioner of Boston was credited with the statement, several days ago, that "half of the buildings doing business in this city require constant watching, to prevent them from violating the building laws, and erecting structures so unsafe that they are a menace to the public."

As we have said before, so we renew the observation today: Jail sentences will teach these rascally contractors a needed lesson. There is neither sense nor reason in dealing gingerly with a lot of men who in cheating their clients, and playing fast and loose with safety regulations, are also willing to subject tenants as well as the public to the varied hazards which criminally defective building methods involve.

109 YEARS OLD

NASHUA MAN OBSERVED THE ANNIVERSARY YESTERDAY

NASHUA, Oct. 30.—John Burnham, said to be the oldest man in New Hampshire, quietly observed his 109th birthday anniversary at his home at 21 Otterson street yesterday. His wife, although 15 years her husband's junior, is old enough to bring the combined ages of the couple up to more than 230 years, making them one of the oldest married couples in the country. Their ages are authenticated by their sons, John and Arthur, who live with them.

The venerable couple are both active still, doing chores and household work. Mr. Burnham has little fear that tobacco will bring his end as yet and is a constant devotee to the pipe.

Mr. Burnham was born in Little Masco, Can., and came when a young man to Burlington, Vt. He passed most of his days working in a tannery at Winooski, but moved to Nashua 11 years ago. He had three children by a former wife.

His present wife, whom he married in Burlington, is a native of France. Her maiden name was Marie Martin, and in her younger days she was a famous dancer. Mr. Burnham has been a great "fiddler." His violin was made in 1715, and was rebuilt a few years ago by the late Napoleon LaPlante of Nashua. The instrument is as much a part of the family as any of them.

STORM OF PROTEST

Jack Johnson Was Initiated Into Masons

LONDON, Oct. 30.—The recent somewhat hushed initiation of Jack Johnson, the negro prizefighter, into a Masonic lodge of Dundee has raised a

storm of protest throughout the country. The grand lodge of Scotland, presided over by the Marquis of Tullibardine, has ordered a searching inquiry into the matter. The Dundeeites ridicule the interference of the grand lodge and maintain that Johnson is as good as any Scotsman.

DR. EATON RESIGNS

Gives Up Position of Cattle Inspector

Dr. William S. Eaton, who for the past several years has been connected with the Draught board of health as cattle and meat inspector, has resigned his position, and the selection having decided to appoint inspectors by districts, have named the following subject to confirmation by the state board of health: Robert Mills for Collinsville, Harry M. Fox for Draught Centre and Service Parker for East Draught.

Dr. Eaton's reasons for resigning the position are the strict regulations put into force by the state board of health, which greatly increase the duties of the inspector of cattle and meat, the doctor having found the position with its increased work, too demanding and arduous for the remuneration in salary. The position last year paid \$664.50, that amount being set in last year's town report as Dr. Eaton's bill for service as inspector of animals, provision and meats.

The district inspectors will not be paid a regular salary, but will receive remuneration for the actual time spent in discharging their duties.

HON. DAVID I. WALSH

Addressed Large Local Rally
Saturday Evening

VOICE OF MAYORS

From Other Cities Including Birmingham, Ala., and Pittsburg, Kan.

Although it was not known until late Saturday afternoon that Hon. David I. Walsh was coming to Lowell and that Saturday night's democratic rally was to be held in Matthews hall, instead of Keros' auction room, a great gathering was on hand and the hall was filled. The gathering was enthusiastic as well as when Hon. David I. Walsh, one of the most forceful campaign orators ever heard in Lowell was about to bring his speech to a close on account of the lateness of the hour his audience cried out to him to continue.

Chairman Cornelius F. Cronin of the democratic city committee called to order and after impressing upon his audience the necessity of getting out the vote on election day introduced the presiding officer, Daniel J. Donahue who spoke in part as follows:

"Last year, at this time, the republican party was defeated by Governor Foss. This year, they are endeavoring to get back into office again, but this morning after election they will wake up tired and hungry to find that history has repeated itself and the people have re-elected Gov. Foss.

A reluctant legislature has been compelled to pass laws demanded by the people, but there is still much work for him to do.

Gov. Foss wears no man's collar. His investigation into the management of public business shows waste and extravagant expenditure of the people's money. The republican party has refused to remedy this evil and thus lightens the burden upon the taxpayer, and brings economy and efficiency into our state affairs.

Taxes have gone up by leaps and bounds, and the men who work and sweat must pay this waste out of their narrow means at a time when everything is advancing in price.

Elected Gov. Foss and a democratic legislature and this waste will be stopped.

A great act of Gov. Foss was his nomination to the bench. He has appointed men to administer the law, not because of their political activity, but because of their character and fitness for the place. In these appointments, he showed character and sound sense, and has done much to elevate the judiciary.

Eugene N. Foss knows what work is and has come up from the ranks of the people. Under him we can march to victory, and bring Massachusetts into line and sympathy with the great movement known as the new government, which will sweep a party of grab and graft out of office and bring back once more an honest government of the people, for the people and by the people.

Let us redeem Massachusetts from that waste and extravagance which has multiplied her debts and the taxes of her citizens. Republican waste.

has raised the price of everything we eat and wear, increasing the price of living. (Republican rule has meant taking money out of the pockets, meat out of the pot, and bread out of the pantry of every toiler of the commonwealth.)

Thos. P. Riley of Malden, a prime Lowell favorite received a warm reception. Mr. Riley spoke in part as follows:

"The idea of Gov. Foss, who employs thousands of hands, who is financially interested to the extent of millions in Massachusetts mills and factories and who himself owns and manages some of the biggest plants in the state, the idea of such a man running for re-election as governor when such a re-election will shut down his plants, stop the wheels of the industries in which he is financially interested and ruin the great plants which he personally owns and manages is one of the most grotesque attempts at hypocrisy ever perpetrated on an election."

William C. Russell received an ovation when he arose to speak and he made brief remarks urging all to vote the entire democratic ticket from top to bottom. J. Joseph O'Connor and Jas. P. Mikella also spoke and were enthusiastically received.

Hon. David I. Walsh aroused the audience by his remarks to a high pitch. In the course of his remarks, he said:

"I am going to present to you the confession of the republican party. It comes from the lips of the mouthpiece of the republican state committee."

When the Lodge-Crane political trust, speaks officially, it speaks through the editorial columns of the Boston Transcript.

When that newspaper says that this political thing must be stopped, when it praises one policy or denounces another, when it pretends to give reasons why candidates should be elected or defeated, it reflects the mind of the bosses of the republican party.

On Wednesday of last week, for some strange, unaccountable reason, it made public confession of the sins and faults of the republican party.

In a long and labored editorial under the caption, "The governor who has not made good," it made these astounding admissions: "The republican party passed a bad tariff law in 1909."

That a vast majority of the voters are thinking much of Foss of Fossism. That the state platform of the republican party is a joke and a trick, meant to get in on and not to stand on.

That in making appointments Gov. Foss has been guided by overwhelming popular sentiment.

That the rise of Gov. Foss was not an unbidden evil; that it has done the republican party good; that the republican party can no longer reason in class conservatism since it has seen that the people are eager for progressivism.

Those are the confessions that the republican party makes of its attempts to fool the people of its own incapacity for honest government and of the strong sentiment in favor of democratic policies.

MORE DELEGATES
MASSACHUSETTS REPUBLICANS
GAIN BY REAPPOINTMENT

WASHINGTON, Oct. 30.—The call for the republican national convention, to be issued by the national committee when it meets in Washington, Dec. 12, will provide for 1964 delegates, to be increased to 1972 if Arizona and New Mexico become states before the convention is held.

The increase from 980 delegates, which comprised the Chicago convention of 1908, is the result of the reapportionment by congress, which increases the size of the house of representatives from 391 to 433 members, or 435 with the two new states.

A table showing the apportionment of the delegates to the 1912 convention has been prepared by Francis Curtis of Springfield, Mass., in charge here of the republican national committee and the republican congressional committee.

This arrangement is expected to be adopted without change by the committee.

The distribution includes:

California 26, Connecticut 14, Illinois 55, Maine 12, Massachusetts 28, New Hampshire 8, New Jersey 28, New York 96, Ohio 45, Oklahoma 20, Pennsylvania 76, Rhode Island 10, Texas 40, Vermont 8, Washington 14, Wisconsin 26.

Today we give letters from cities in which the commission form of government is in force so that the writers know whereof they speak. With one acclaim they say the new charter gives more power to the people, gives better service and in general shows better results for the money expended. The first letter is from the city of Birmingham, Ala., with a population of 132,683. The others are from smaller cities, but in these the effect of the change to the new form of government is even more marked.

THE LETTER OF INQUIRY

The circular letter from this office was as follows:

Lowell, Mass., October, 1911.

Dear Sir:—The citizens of Lowell are soon to vote upon the question of adopting the commission or Des Moines form of charter in all its important features and as the opposition claims that the new charter will take the power away from the people, that it is backed by the money power in Wall Street and means a return to slavery, will you kindly answer the following queries for the information of the citizens?

1—If these claims have any foundation?

2—Under such a charter can any particular class of citizens have special advantages over any other class?

3—Has this form of charter improved conditions in your city or would you go back to the old form of charter?

4—Is there any reason why the working classes should not prefer such a chamber system in which partisan politics is predominant?

By answering these questions or giving any other information in regard to this charter you will greatly oblige us. Yours very truly, etc.

FROM BIRMINGHAM, ALA.

City of Birmingham, Board of Commissioners, October 27, 1911.

Editor Lowell Sun, Lowell, Mass.

Dear Sir:—I have yours of October 17, relative to Commission Form Government. Birmingham has been operating under this system a little over six months, having changed from the Aldermanic plan last April. The question of changing from the Aldermanic to the commission form of government was submitted to the voters, and the commission carried about eight to one.

Since the commissioners have been in charge of the affairs of government, the city government have been reduced about \$150,000.00, and I do not believe that this city would even consider going back to the old form of government.

Yours very truly,
H. S. RYAL,
Secretary Board of Commissioners.

FROM PITTSBURG, KAN.

Office of City Clerk, Pittsburg, Kan., Oct. 25, 1911.

The Lowell Sun, Lowell, Mass. Gentlemen: Your favor of October 17, to hand; I have answered the questions you have asked me on the letter sent and am returning it to you. We are well satisfied with the Commission form and would not go back to the old for anything.

I am satisfied some improvements can yet be made, but like everything else it will grow. October 1, 1911, we bought our water works.

Yours truly,
A. C. Graves, mayor.

The answers to questions 1, 2 and 4 are no, no, no. The other commissioners of Pittsburg with departments of which they have charge are as follows:

Wm. Layton, Jr., commissioner of finance and revenue; Fort Mead, commissioner of parks and public property; James O'Leary, commissioner of streets and public improvements; J. A. Nichols, commissioner of water works and street lighting.

CITY OF MODESTO, CAL.

Below is a very important and instructive letter from the city of Modesto, Cal., where the municipal council consists of C. J. Wren, mayor; conmissioner, L. T. Moss, Gen. Perley; G. P. Schafer and C. D. Swan.

Modesto, Cal., Oct. 23, 1911.
Editor of The Sun, Lowell, Mass.

Dear Sirs: I have your circular letter bearing date of Oct. 17 and note query in matter of commission government for municipalities.

It is impossible for me to understand why any one should think that the commission form of government takes any power away from the people. On the contrary it places everything absolutely in the hands of the people or, at least, as worked out by our charter.

It does. I will answer your questions as you put them: First, no, absolutely no. Second, positively no. Third, yes.

While this form of government under our new charter has been in operation only four months, we have already made a noted improvement in general condition of the city. Each commissioner is "on his job" all of the time.

The commissioner of public works has absolutely "cleaned up the city" along his line of work and the commissioner of public health and safety, who has charge of the police department is very rapidly "cleaning" the city along his line. There is no friction in the council. Everything works like a clock; the people are satisfied; there is not a voter in the city who would vote to return to former conditions. Fourth,

there is no reason why the working class should not prefer such a charter and government to the old way, but on the contrary every reason why they should. It is purely a business proposition which gives to the city the same modern methods which any other business man gives to his business affairs.

The writer at one time served this city on the board of trustees, under the old arrangement. The business of the city was handled by committees, usually two members of the board on a committee. As usual, the work to be performed by such a committee was either not done at all or done by some one man on the board who gave up his time to the dear people. While this was at a time before the commission form of government was thought of for our city, the writer used every effort to induce board of trustees to appear the work to each of the members so that each would have his particular work to attend to and could be held responsible for it. (This is exactly what our commission form of government provides for. Under this form of government each commissioner, as a commissioner, has his particular duties to perform and is held responsible for the results, not alone by the council but by the people of the city. The result is all that can be desired here.

Very truly yours,
C. J. Wren,
Mayor of Modesto.

Michael J. Dowd will preside and the speakers will be Mayor Meehan and Lawrence Cummings. The public is invited.

AGAINST CHARTER
MAYOR JOHN F. MEEHAN WRITES AGAINST ITS ADOPTION

The following communication relative to the new city charter was received Saturday and was necessarily crowded out until today.

Lowell, Oct. 28, 1911.
To the Editor of The Lowell Sun:

This is the eve of charter week. The question as to whether Lowell should adopt the form of government proposed is the most important which has been before us in years. I think we can fairly assume neither side, these opposed or those in favor, wants a single vote which is not cast with at least a reasonable understanding of what it all means.

It can hardly be denied I think that for months the newspapers have been filled with arguments all in favor of the new instrument. Those of us who are opposed are no doubt to blame in

part because of our failure to come forward sooner, but that time is past. I would like to say now that after a careful study of the conditions in Des Moines and Haverhill, the two cities most frequently held up to us as glowing examples, I am more convinced than ever, that the charter should be defeated.

I am ready to present facts and figures so Lowell people may appreciate this as no mere personal judgment. Therefore in the interest of fair play, and in order that Lowell people may be able to hear from both sides, I will be very glad from now till election day, if The Sun is agreeable, to discuss the situation in these cities and to answer any arguments which may be brought forward regarding them.

I find in circulating about two distinct types of argument are being made by those anxious to secure the adoption of the measure in question. The general public arguments can be summarized as follows:

"That it will mean lower taxes, especially on 'small cottage homes'."

"Immediate reduction of debt, including the temporary loan if not its entire elimination."

"Increase of efficiency in departments, and consequent reduction in total running expenses."

"Dignity, decorum and complete publicity of all council meetings such as they claim now prevails in Des Moines and Haverhill."

There are also to be found these other arguments which are being quickly advanced to various groups of our citizens.

Business men are being told that once the committee of five is in, that contract work can be extended, and the Taylor Efficiency system installed. There will be no blocking councilmen then.

Laboring men are being told that the adoption of the charter means even more day labor and better conditions.

Public Service corporations are being winked into an appreciation of how much easier it will be to handle five men, or rather three men for that

ARCHBISHOP O'CONNELL NOTIFIED

BOSTON, Oct. 30.—Official confirmation of his elevation to the cardinalate was received at 2 p. m. today by Most Rev. William H. O'Connell, archbishop of Boston.

Cardinal-designate O'Connell will go to Rome to attend the consistory on November 27th, according to a statement issued this afternoon.

BURGLARS ENTER POSTOFFICE

NORTH DIGHTON, Oct. 30.—An unsuccessful attempt to blow open the safe at the North Dighton postoffice was made by burglars early today. About 3 a. m. Frank Pine, a fireman at a paper mill, heard an explosion. On leaving the mill to investigate he was confronted by a man with a revolver, who ordered Pine back into the factor. Pine then telephoned to the Taunton police and when the officers arrived it was found that the burglars had entered the postoffice through a rear window and had tried to blow the safe door off its hinges. The door, however, remained firm, although the explosion caused considerable damage to furniture in the office.

means a quorum, than a city council of 35.

Those seeking improved service from the corporations are told that at last we will have men who can go right to the banking rooms of the corporations and make them do the right thing. Our substantial citizens, and I use the term for lack of a better one, are being assured this means at last they can sit in to the government without the bother of present conditions. Yet at the same time, every ward in the city and the representatives of almost every nationality are being told that they most certainly will be allowed representation on that board, though how it is to be done with a total of five remains to be proved.

Let us look the matter squarely in the face. The facts show that in the two favorite example cities, Haverhill and Des Moines, things are unsatisfactory in many ways and financial conditions are far from happy. The great cry is to reduce Lowell municipal business to a corporation basis, to substitute boards of directors for councilmen and to carry on the work in that fashion. We are told that five are sufficient to run the city and then we provide further that three men can do it.

Is there a national or savings bank in Lowell or a mill corporation which has only five directors?

I await an answer. If it takes seven, eight, nine and ten men to run a bank or a mill, is the great corporation of the city of Lowell so easy a problem that five men can be trusted, and three of them made a quorum?

This is a business question, a fair question, one every citizen should take home to himself.

Respectfully yours,
John F. Meehan.

CATHOLIC NEWS

TO LET

The parish mass at the Sacred Heart church yesterday was celebrated by Rev. Fr. Racette, O. M. I. of the Tewksbury novitiate. The sermon was preached by Rev. John P. Flynn, O. M. I. The latter also read the announcements for the current week.

Tuesday morning at 8 o'clock, mass in honor of St. Anthony will be celebrated, before which confessions will be heard. Wednesday is the feast of "All Saints," a holy day of obligation. The masses will be celebrated at 5, 7 and 8 o'clock.

On Thursday morning at 8 o'clock the first of the ten high masses for the November intentions will be sung. Friday is the first Friday of the month; masses at 5, 7 and 8 o'clock. Confessions will be heard on Thursday afternoon and evening. The confirmation classes will be instructed on Saturday morning at 8 o'clock.

The regular monthly edition of the church calendar was received yesterday and distributed after the high mass. The feature article in the publication is a continued story, entitled "The Congregation of the Missionary Oblates of Mary Immaculate," by Rev. E. J. Cornely, O. M. I. of St. Andrew's church, North Billerica. Other articles are "Don't Be Too Modest," "How I Became a Catholic," and "Catholic Women's Colleges." All are excellently composed and very interesting and instructive.

The recitations of the parish are included in the calendar, as well as the church societies, and meetings and communion days of each; also the ensuing months' announcements and a number of well arranged advertisements. The calendar has proven a grand acquisition to the church, and is in this city and its monthly editions are thoroughly read and enjoyed by the parishioners as well as many others not connected with the church.

St. Peter's Church

The parish mass at St. Peter's church yesterday was celebrated by Rev. John P. Burns and the sermon, an eloquent one, was preached by Rev. John O'Brien. "There was a very large congregation present. The 10 o'clock mass in St. Paul's chapel was celebrated by Rev. W. George Mullins and the sermon was delivered by the pastor, Rev. Dr. Keleher. He dwelt on the significance of the feast of "All Saints" and the feast of "All Souls," both of which are to be commemorated this week. Referring to the feast of All Souls, Dr. Keleher said it was a beautiful custom to honor the dead in the solemn mass of requiem, and urged all to have their relatives and friends included in this service on Thursday and also the other masses to be celebrated later. He urged the congregation to frequently remember the dead in their prayers, and in attending the various services throughout the year.

The arrangements for "All Souls" day, which in the church calendar, is a holy day of obligation, are the same as obtain on other holy days. Masses will be celebrated at 5, 7 and 8 o'clock. In the evening at 7:30 o'clock, the evening service will also mark the close of the October devotions.

Thursday, "All Souls" day, while not a holy day in the sense of the word, still is regarded as a day of great devotion. The solemn high mass and requiem will be celebrated at 9 o'clock and Rev. Dr. Keleher administers the members of the parish to send in the names of deceased friends and relatives as early as possible in order that the names can be read out on that day.

Next Friday, the high mass in honor of the Sacred Heart will be held with masses at 5 and 7 o'clock. In the evening the customary "Holy Hour" service will be held with a special musical program. Rev. Dr. Keleher said yesterday in announcing the services that he hoped the devotion as the weather has now departed, that the attendance at this beautiful service of the "Holy Hour" would be up to the standard.

At St. Patrick's

Rev. John J. McHugh sang 11 o'clock mass at St. Patrick's church yesterday, and the sermon was preached by Rev. Timothy J. Callahan. The sanctuary choir of 50 voices rendered an inspiring musical program. Wednesday the Feast of All Saints, being a holy day of obligation, the first mass will be at 5 o'clock and high mass at 9 o'clock. In the evening the eve of All Souls' day, solemn vespers for the dead will be sung and a sermon preached appropriate to the occasion. On Thursday, All Souls' day, solemn high mass will be sung for the deceased members of the parish.

On Friday evening the beautiful Holy Hour service will be held with a special musical program.

A LITTLE NONSENSE

NOT MUCH OF A SHOW.
"Did you enjoy the play?"
"Not much. The leading lady only changed her gown three times."

NOT THOUGHT MUCH OF.
"How did you stand with Miss Sweet?"
"Not very well, I guess. Every dance I've met her at the best she would put me down on her program for was an extra-extra."

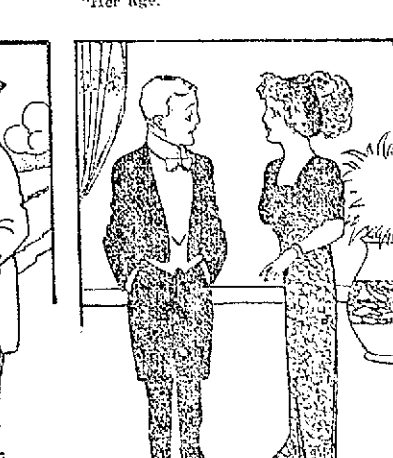

UNDETERMINED.
"There is a woman of determination."
"There is one thing she is never able to determine."
"And what is that?"
"Her age."

A SAD SEQUEL
"Do you remember that young lady who was rescued by that handsome young man last summer?"
"Yes, it was quite a romance. And what was the sequel?"
"Oh! they were married, and she has just sent him for non-support."

IN HOPES.
"Well, I live in hope now."
"What's happened?"
"Some of my rich relations have taken up acroplaning."

MORE TO PICK FROM
"It isn't always the prettiest girl who gets the best husband."
"Maybe not, but she has the most chances to."

LEGAL NOTICES

To the Honorable the Justices of the Superior Court within and for the County of Middlesex:

Respectfully I beg to represent Margaret A. Sturtevant, late of said County, that she was lawfully married to Frank S. Sturtevant, now of parts unknown to your Honorable Court, in the County of Middlesex, in said Commonwealth, on the sixteenth day of July, A. D. 1911, and thereafter cohabited with said Frank S. Sturtevant, her husband, and while in this Commonwealth, to wit, at Lowell, in said County of Middlesex; that your Honorable Court has always been faithful to her marriage vows and obligations, but the said Frank S. Sturtevant, being wholly regardless of the same, at Manchester, in the State of New Hampshire, on or about the first day of February, 1908, did utterly desert your Honorable Court, and has continued such desertion to the time of the filing of this libel; being more than three calendar years next prior to the filing of this libel.

Wherefore your Honorable Court prays that a divorce from the bonds of matrimony may be decreed between your Honorable Court and the said Frank S. Sturtevant, and that she be permitted to resume her maiden name of Margaret A. Purcell, there being no children now alive born of said marriage.

Dated this seventeenth day of October, A. D. 1911.

MARGARET A. STURTEVANT.

COMMONWEALTH OF MASSACHUSETTS, Middlesex ss. Superior Court. October 26, A. D. 1911.

Upon the libel aforesaid, it is ordered that the libellant notify the libellee to appear before your Honorable Court, at Cambridge, in said County, on the first Monday in the next month, to-wit, on the 11th day of November, A. D. 1911, at nine o'clock in the forenoon, to show cause, if any you have, why the prayer in said libel set forth should not be granted.

WM. C. DILLINGHAM, Clerk.

A true copy of the libel and of the order thereon.

AN AMERICAN POPE

Comment in Rome That One Will Yet be Chosen

ROME, Oct. 30.—Comment on the approaching consistory, when 17 cardinals including three from the United States will be created, continues to emphasize the great significance of Pope Pius's decision to grant American representatives in the sacred college. By some it is asserted that the way is being paved for the future advent of an American pope. By such, it is pointed out, that the largest aggregation of Catholics in the world is to be found in the United States and its possessions, the Philippines, Hawaii, Porto Rico and Guam. Not only are the Catholics of America superior in numbers but in deep religious feeling, loyalty to the Holy See and in wealth and generosity. An Irish-American pope is suggested for the day when it shall be considered no longer necessary for the papacy to be held by an Italian.

The American college faculty and students are rejoicing especially over the elevation of Archbishop O'Connell of Boston and Archbishop Farley of New York as they are alumni of the college. The latter was one of the original 13 students when the college was founded by Pope Pius IX. The former was both a student and rector and is the first rector to be raised to the papal throne.

The objections made by some that Mr. Kennedy, rector of the American college, being an American, cannot be appointed apostolic delegate at Washington, are confuted by the fact that the present pope for the first time made a departure from the custom, nominating Mgr. Fruchetti as papal nuncio to Munich, which arrangement is working well. Moreover, Mgr. Kennedy is described as a Romanist to the backbone.

It is reported that Mgr. Sante Tamponi, who accompanied Cardinal Vincenzo Vannutelli to America on the occasion of the Eucharistic congress at Montreal, and is private chaplain to the pope, will be entrusted to take the red hat to Archbishop O'Connell.

CLAIM WAS DISMISSED

Captain Knapp Asked \$150,000 Damages From U. S. Navy

WASHINGTON, Oct. 30.—The claim of Captain J. J. Knapp of the navy, that he was entitled to \$150,000 damages for the alleged patent infringement by the government of a Knapp secured patent in 1905 but patent to prevent firelocks in the hands of the navy as to their value. Today's decision was based on a report of navy experts who made an exhaustive investigation.

FREIGHT WAR CASE

Taken Up by the Interstate Commerce Commission

WASHINGTON, Oct. 30.—Sitting as a board of arbitration, the interstate commerce commission today began the hearing of the eastern freight war case involving the rail rates on import traffic for the ports of Boston, New York, Baltimore, Philadelphia, New Norfolk to interior destinations. It probably will be several months before the question of the differentials in rates finally is determined.

B. L. Fairchild, counsel of the New York chamber of commerce, was not ready with the so-called export case which involves many of the same points as the "import case" and it was postponed until the first week in January. Mr. Fairchild declared that if the rates as among the various ports should be established arbitrarily by the commission as a board of arbitration they would be illegal. New York, therefore, substantially withdrew from the import case.

Baltimore, through its commercial bodies, insists on a lower rate to the west than from Boston on import traffic because it is nearer to the destinations. Boston, because of the peculiar nature of traffic, maintains that it should have the same rates as Baltimore.

LOWELL MAN HURT

One of Victims of Railroad Wreck

CHEYENNE, Wyo., Oct. 30.—All the injured in yesterday's Union Pacific railroad wreck at Rock River were brought here Saturday night. Among the injured are:

Gus Kardanos, Manchester, N. H., scalded.

Bill Golas, Lowell, Mass., scalded.

A. Drinkos, Manchester, N. H., scalded.

FIREMAN BERNIER IS RECOVERING FROM INJURIES HE RECEIVED

The many friends of Fireman Joseph Bernier of Hose Company 12, West Sixth street, will be pained to learn that he is gradually recovering from the injuries received a few days ago while answering an alarm from box 52.

At the first stroke of the bell, the fireman went upstairs and they made a rush for the pole to reach the wagon in the quickest time possible. Bernier happened to be the second man in line and he made a swing for the pole, reaching it about the same time as Fireman D'Amour. Trying to avoid striking D'Amour, Bernier threw out his leg and the latter was caught on the floor, with the whole weight of Bernier's body on the pole. He managed to get out of this perilous position, however, but not before he had badly strained his leg.

The injured man was removed to his home, 78 Beaulieu street, and Dr. Jackson was called. He is now doing very well and will probably be about again in a few days.

FIERCE SLAUGHTER

Chinese Rebels Were Mowed Down by Imperial Forces

HANKOW, Oct. 30.—The imperial forces are preparing to follow up their victory over the rebels last week by an attack on Wu Chang, which the revolutionists have protected by elaborate emergency fortifications, and Hanyang, which is regarded as of the utmost importance on account of the arsenal there. Admiral Sui yesterday notified the foreign consuls that he was about to begin a bombardment of Wu Chang and asked that all foreigners be ordered to leave at once. The loyalists are now in undisputed possession of the entire city of Hankow, including the powder factory. They also are in control of the railway.

Friday's battle at Kilmorty ten was a splendid exhibition of gallantry and pluck on the part of the rebel forces. Although they were outnumbered 2 to 1 by the trained force of imperialists in front of them and were subjected from the flank to a raking cross fire from Admiral Sui's warships they held their ground until nearly 500 had been killed and 1,000 wounded. At last they were compelled to retire. Their ranks were broken but there was no panic.

The advance of the loyalists was a splendid justification of the training which these northern troops have received recently under European instruction. Ten thousand strong, they crossed into the rebel territory during the night and attacked the entrenched revolutionary forces at daybreak Friday morning. They were about 5000 of the rebel troops. These were behind well planned fortifications and had little to fear from the attack of the troops.

It was the guns of Admiral Sui's fleet which finally decided against them.

Sui's eight vessels approached the rebel positions soon after the advance of the imperial troops began but did not fire until they were within a little while the eight ships silently retired as if they had decided not to participate in the engagement. Later they returned, this time ready for business. The range was short and the gunners mercilessly poured in their shells upon the rear of the rebel position. The slaughter was appalling. The rebel batteries

A NARROW ESCAPE

Children Step in Front of Approaching Auto

But for the quick action of C. H. Flanders, superintendent of the street department for the Lowell Gas company, two children would probably have been seriously injured this afternoon in West Sixth street.

Mr. Flanders accompanied by an elderly woman was going up West Sixth street in his automobile at a fair rate of speed, and when he reached the corner of Knoll street, two children aged about five years, stepped into the middle of the street and marched right into the path of the coming automobile.

Mr. Flanders, who apparently had his eye out for any such happening, quickly applied the brakes and then reversed the power. The two rear wheels of the machine slid about 10 feet and then came to a full stop just as the auto was about to strike the children. The latter immediately stepped out of the way, and Mr. Flanders kept on his way congratulating himself over the fact that a probable serious accident had been avoided.

GIRL HAS DISAPPEARED

She Was Visiting a Relative in Andover

Mrs. Emily Fredette of Grand street is anxiously awaiting tidings of the whereabouts of 14 year old Florence Gilbert, Taylor, her sister by adoption though many years her junior who disappeared at Andover on Saturday under very peculiar circumstances. Nine years ago, Florence Gilbert, then five years of age and a member of a large family of which Mrs. Fredette was adopted by her mother, Mrs. Taylor, mother of Mrs. Fredette, and brought to Lowell. Mrs. Taylor took out legal adoption papers and the little girl took the name of her foster-mother. Mrs. Taylor came to live with her daughter, Mrs. Fredette, some few years ago and upon her death the girl continued to live with Mrs. Fredette as one of the family, sharing the comforts of her own children and receiving a good education. For years no tidings were received of the other members of the family until recently Mrs. Fredette received word from an older sister, Belle Gilbert, making known the fact that she was residing in Andover and would like to see her sister.

Mrs. Fredette replied that she would visit her at Andover on Saturday, taking with her the little girl. On Saturday morning they went to Andover and met Belle Gilbert, the little girl falling at first to identify her sister. The reunion was very pleasant for an hour or two when Belle Gilbert suddenly recalled the fact that she had an important errand to engage her attention and asked permission to take the little girl with her, stating that

FINE EXHIBIT

"DEERFIELD WORK" SHOWN AT WHISTLER HOUSE TODAY

An exhibition of "Deerfield Work," lent by Miss Eleanor M. Arms of this city opened at the Whistler house this afternoon. The society of Deerfield industries is back of the exhibition and the society, while somewhat unique, has charming ways. The exhibition is something that one cannot afford to miss. Deerfield is a dear old place and the artistry that is being displayed at the Whistler house helps to perpetuate the glory of Deerfield. The women of the place have taken a great interest in doing things that are not only difficult but original and if you would see beautiful products of the old hand loom and baskets representing skill and patience step in at the door to the Whistler house. There you will see blankets woven from Kentucky homespun and you will find Miss Arms busy at the old hand loom. The yarns used are dyed with herbs and herbs and you will find there a great many things that are quaint and charming. The Deerfield women have made a specialty of village handicraft in pottery, basketry, weaving, etc. They also indulge in photography and etching.

NOTICE TO STOREKEEPERS

Accept no more Red Star Net Coal coupons, as a good many store people have taken undue advantage of my method of advertising this special coal and to a great many cases, most of the coupons were in the same handwriting, and several bags to one family.

The intention of my ad. was to get people to try the Red Star Net Coal who never used it before.

I will investigate those coupons and all bona-fide coupons I will redeem at once, but if collusion to defraud between storekeeper and purchaser can be proven, I will prosecute the guilty party.

Men Seriously Injured While at Work in Hamilton Mill Yard

Olinda Shaddock, residing in Williams street and David Paradis, of 315 Aiken street, were seriously injured while at their work this forenoon in the Hamilton Mill Co. yard. They were both removed to the Lowell hospital, where the attending physicians have little hope for their recovery.

The mill officials when questioned about the accident this forenoon stated they did not know how it happened, but it was stated that the two men were employed in loading freight cars with cotton bales, and that they were both caught between two cars. The accident happened at 3:15 o'clock this morning. The injured men were removed to the Lowell hospital in the ambulance and there it was found that Shaddock was suffering with a broken collar bone and several fractured ribs, while Paradis also had several ribs shattered and his right hand badly lacerated.

PULITZER IS DEAD

Proprietor of New York World Passed Away on His Yacht

NEW YORK, Oct. 30.—Joseph Pulitzer, proprietor of the New York World, died of heart failure yesterday morning on his yacht Liberty in the harbor of Charleston, S. C., after an illness of two days. The news was received here in a telegram from his secretary.

Mr. Pulitzer, accompanied by his younger son, Herbert, left New York on Friday, and the yacht put

Prof. Charles Zueblin was the speaker at the "special form" series of meetings at Grace Universalist church last night. His subject was "Religion of the Common Life," and he said that religion is the endeavor of man to express his relation to the infinite.

"The thoroughly scientific man, today," he said, "does not pretend to define God; while the old-fashioned theologian, who may never have been to school, can give a minute description of God. Intellectually, there are multitudes of people among us who know all about the infinite because they know so little about anything else."

"The person who has the religion of the common life, is the person who can hold religious fellowship with any other person, of any other faith. Any one who is without that may have a well defined theology and a religion that satisfies his soul, but he does not belong to the 20th century. Every significant little piece of this enormous universe, that is called a man, has its own relationship to the infinite."

"Some people are temporarily altruistic, and others are temporarily egoistic. One naturally thinks of himself, and the other more easily thinks of others. But the altruist may be an impressionable, soft-hearted philanthropist, while the egoist may carry through a tremendous reform, by the power of his conviction. So it is with the optimist and the pessimist. Optimists are not blind to evil, pessimists can see good; but it is easiest for each to see what is naturally his temperament. When a pessimist has overcome his tendency, he will have seen enough of the evil of the world to want to overcome it, while the optimist, who is completely let things go because he believes we are living under the best possible conditions. People are also temperamentally rationalistic or emotional. We Americans are much more emotional than we allow ourselves to be, because we have been brought up under the blight of puritanism."

"The combination of these different temperamental characters is different in every soul, and therefore each individual reacts upon the individual and the finite differently from any other. Therefore, everybody must work out his own salvation. Otherwise, he has not what may be called a religion. Most people are born into a church or a doctrine, and they are too lethargic to change, or have too little character to change. We must all be born again; there must come, some-

time, a transformation within, which means that his personality has worked out its relationship to the infinite."

In conclusion, Prof. Zueblin said: "The authority of Jesus is the authority of a whole life in harmony with nature and truth, regardless of theological belief."

"The religion of the common life is a religion that can come to anybody. In any ecclesiastical organization or outside of any ecclesiastical organization, who relates himself to the universal and the ultimate and the infinite, described in any terms or in no terms. Some day we shall see organic, our nation that we shall have a national expression of religion. It will not be a state church, but every act of ours will be an expression of religion. Every time we vote, it will be an act of religion. Until religion so expresses itself, it will simply mean names and formulas, and the spiritual and ethical. A living faith is more important than any special faith. You may believe in Mormonism, in single tax, in socialism, or even in the republican or democratic party, and still be religious. You may have a religion all by yourself, that nobody else can convert, and if it makes you holy it is religion. You may belong to the most numerous sect in existence, and follow all of its tenets, and if it is not vital, it is not religion."

First Universalist Church

At the First Universalist church, Sunday night, there was a special musical service and a short sermon by the pastor. The musical service was given by a soprano soloist, Miss Evelyn Blair of the Columbia Avenue Universalist church, Boston, and a tenor soloist from the same church, Mr. John Daniels.

The service opened with a solo, "My Redeemer and My Lord," by Dudley Becker, sung by Miss Blair. Mr. Daniels sang "Prayer." Then Miss Blair sang for the offertory "Close to Thee," by Briggs and after the offering Miss Blair and Mr. Daniels sang "Love Divine," by Steiner.

The pastor, Rev. C. E. Fisher, D. D., preached a short sermon on the "Golden Vision of St. Paul."

Formed Boys Council

A meeting was held at the Y. M. C. A. rooms Sunday afternoon for the purpose of forming a boys council for the "Men and Religion" movement for Lowell. Officers were elected, chairman of committees were appointed, and a constitution consisting of Messrs. Timmons, Lapham, and Conley, were elected to plan for a banquet and meeting of all older boys who represent their churches, the pastors, and superintendents of the Sunday schools, when men who are cognizant of the needs of the boys will meet in the campaign will be secured to speak, and instruct the boys. The officers of the "council" include, James Grant of the Pawtucket Congregational church, as president; Herman Foster, of the Kirk Street church, as vice president; Geo. Wilkins of the First Baptist church as secretary; Philip Thibault of the Palace Street Baptist church as treasurer, and five boys and men as chairmen of five different activities which are on the program of work. These include Bible study, Frank W. Callahan, instructor; Howard Haines, social service; Nelson Chase, evangelism; Chester Chase, boys' work. Mr. R. W. McAlister. Drawn by Civil War

Joseph Pulitzer was born in Budapest in 1847. His father was a business man, supposedly of means, but when he died, while Joseph was still a boy, the estate was found to be small. That he might not be a burden on his mother, Joseph determined to enter the army, but was rejected because of a defect in one of his eyes. In Germany, France and England he met the same result. The Civil War was in progress in this country and he decided to come here. He landed at Castle Garden in 1864, practically penniless. He knew nobody in this country and could speak only a dozen words of English. Within a few days, however, he met a fellow-countryman and was enrolled and served to the end of the war in the Lincoln cavalry, as the German regiment was called, part of the time under Sheridan. When he was mustered out at its close in New York city he was still ignorant of English. With an Austrian companion he went to a railroad ticket office, threw down all the money they had between them and asked for passage as far west as their capital would take them. It was thus by chance that Mr. Pulitzer went to St. Louis.

First Enterprise Failed

After alternating as a stovewarer and a fireman on boats plying between St. Louis and New Orleans for some time, he had money saved to start in business as a book stovewarer in St. Louis. This was his first enterprise and it was not a success. Its failure left him again penniless and his strength diminished.

He went from one humble employment to another until a St. Louis politician, noting his ignorance of American ways, induced him to take a post that no well-informed person would have undertaken. In order to have the charter of the St. Louis & San Francisco railroad recorded in each county of the state, it was necessary that the papers should be personally filed with the clerk of every county, and it was expected that the man engaged in the task would certainly lose his life. He completed the task and returned to St. Louis still in ignorance of the risk he had run.

This experience marked the turning point in his early struggles. It gave him a knowledge which no other man then possessed of the land conditions of every county of the state, and real estate men found his services invaluable. Even during his earlier victories he had been a voracious reader, and eager student and had already begun to study law. In 1868, years after he landed at Castle Garden, he was admitted to the bar. He practised for a short time, but the profession was too slow for him.

Place in Journalism
He was bursting with ambition and energy, and found it impossible to confine himself to the tedious routine of a young attorney. He looked about for some manner of life in which he could bring all his suppressed energies into immediate play. He found it in journalism. He became a reporter for the Westliche Post, a German paper edited by Carl Schurz.

That was in 1868, and before the year was over he had risen to city editor and later to managing editor. Still later he became part owner of the paper. In the meantime he had begun taking an active part in national and local politics. In 1869 he was elected to the Missouri legislature, though but 22 years old and only five years after he had landed here penniless and ignorant of the language.

into Charleston. His illness proving to be serious, a telegram was sent to his wife, who left New York for Charleston Saturday and arrived shortly before he died. The body will be brought to New York today, when funeral arrangements will be made.

Drawn by Civil War

Joseph Pulitzer was born in Budapest in 1847. His father was a business man, supposedly of means, but when he died, while Joseph was still a boy, the estate was found to be small. That he might not be a burden on his mother, Joseph determined to enter the army, but was rejected because of a defect in one of his eyes. In Germany, France and England he met the same result. The Civil War was in progress in this country and he decided to come here. He landed at Castle Garden in 1864, practically penniless. He knew nobody in this country and could speak only a dozen words of English. Within a few days, however, he met a fellow-countryman and was enrolled and served to the end of the war in the Lincoln cavalry, as the German regiment was called, part of the time under Sheridan. When he was mustered out at its close in New York city he was still ignorant of English. With an Austrian companion he went to a railroad ticket office, threw down all the money they had between them and asked for passage as far west as their capital would take them. It was thus by chance that Mr. Pulitzer went to St. Louis.

First Enterprise Failed

After alternating as a stovewarer and a fireman on boats plying between St. Louis and New Orleans for some time, he had money saved to start in business as a book stovewarer in St. Louis. This was his first enterprise and it was not a success. Its failure left him again penniless and his strength diminished.

He went from one humble employment to another until a St. Louis politician, noting his ignorance of American ways, induced him to take a post that no well-informed person would have undertaken. In order to have the charter of the St. Louis & San Francisco railroad recorded in each county of the state, it was necessary that the papers should be personally filed with the clerk of every county, and it was expected that the man engaged in the task would certainly lose his life. He completed the task and returned to St. Louis still in ignorance of the risk he had run.

This experience marked the turning point in his early struggles. It gave him a knowledge which no other man then possessed of the land conditions of every county of the state, and real estate men found his services invaluable. Even during his earlier victories he had been a voracious reader, and eager student and had already begun to study law. In 1868, years after he landed at Castle Garden, he was admitted to the bar. He practised for a short time, but the profession was too slow for him.

He was bursting with ambition and energy, and found it impossible to confine himself to the tedious routine of a young attorney. He looked about for some manner of life in which he could bring all his suppressed energies into immediate play. He found it in journalism. He became a reporter for the Westliche Post, a German paper edited by Carl Schurz.

That was in 1868, and before the year was over he had risen to city editor and later to managing editor. Still later he became part owner of the paper. In the meantime he had begun taking an active part in national and local politics. In 1869 he was elected to the Missouri legislature, though but 22 years old and only five years after he had landed here penniless and ignorant of the language.

time, a transformation within, which means that his personality has worked out its relationship to the infinite."

In conclusion, Prof. Zueblin said: "The authority of Jesus is the authority of a whole life in harmony with nature and truth, regardless of theological belief."

"The religion of the common life is a religion that can come to anybody. In any ecclesiastical organization or outside of any ecclesiastical organization, who relates himself to the universal and the ultimate and the infinite, described in any terms or in no terms. Some day we shall see organic, our nation that we shall have a national expression of religion. It will not be a state church, but every act of ours will be an expression of religion. Every time we vote, it will be an act of religion. Until religion so expresses itself, it will simply mean names and formulas, and the spiritual and ethical. A living faith is more important than any special faith. You may believe in Mormonism, in single tax, in socialism, or even in the republican or democratic party, and still be religious. You may have a religion all by yourself, that nobody else can convert, and if it makes you holy it is religion. You may belong to the most numerous sect in existence, and follow all of its tenets, and if it is not vital, it is not religion."

First Universalist Church

At the First Universalist church, Sunday night, there was a special musical service and a short sermon by the pastor. The musical service was given by a soprano soloist, Miss Evelyn Blair of the Columbia Avenue Universalist church, Boston, and a tenor soloist from the same church, Mr. John Daniels.

The service opened with a solo, "My Redeemer and My Lord," by Dudley Becker, sung by Miss Blair. Mr. Daniels sang "Prayer." Then Miss Blair sang for the offertory "Close to Thee," by Briggs and after the offering Miss Blair and Mr. Daniels sang "Love Divine," by Steiner.

The pastor, Rev. C. E. Fisher, D. D., preached a short sermon on the "Golden Vision of St. Paul."

Formed Boys Council

A meeting was held at the Y. M. C. A. rooms Sunday afternoon for the purpose of forming a boys council for the "Men and Religion" movement for Lowell. Officers were elected, chairman of committees were appointed, and a constitution consisting of Messrs. Timmons, Lapham, and Conley, were elected to plan for a banquet and meeting of all older boys who represent their churches, the pastors, and superintendents of the Sunday schools, when men who are cognizant of the needs of the boys will meet in

CHARTER GRANTED

Lowell Men Interested in Knitting Mill

A charter has just been granted to the Canadian Knitting company, limited, of Hamilton, Ontario, the incorporation being John M. Harris, Robert B. Harris, Thomas J. Stewart, M. P., Robert R. Simpson, W. H. Macmill, Francis X. Monette and George Nutting. The company is capitalized at \$300,000, and is now erecting a knitting mill, its specialty work to be the manufacture of ballbearing underwear. Two members of this company, Messrs. Monette and Nutting are both well known in this city, where they lived for a number of years, previous to their going to Hamilton, Ont. While in Lowell, the two young men were both employed in the knitting department of the Lawrence Mfg. Co. They left Lowell about three years ago and they have been very successful in the Canadian city. Their many Lowell friends will be pleased to learn of their prosperity.

FUNERALS

McGUGAN—The funeral of the late Owen McGugan took place this morning at 8:30 o'clock from his late home, 40 Walnut street, and was largely attended by sorrowing relatives and friends. The funeral cortege proceeded to St. Peter's church, where at 9 o'clock a solemn mass of requiem was sung by Rev. Daniel J. Heffernan. The choir sang the Gregorian mass. At the offertory Miss Gertrude Kiecher sang "O Meritum Passionis," and after the elevation Mr. James E. Donnelly sang "Pie Jesu." As the remains were being borne from the church the choir sang "De Profundis." Mrs. John W. McGugan presided at the organ.

Among the many floral tributes were: A large wreath of palm leaves and chrysanthemums, from the employees of F. T. Putnam & Son; wreath of asters and chrysanthemums inscribed "At Rest," Catherine and Grace McEvoy; spray of palms and asters, John Tyrrell; wreath, Chimney family; and a spray of chrysanthemums from Mrs. Holpin and daughters, Margaret and Ruth. The bearers were Daniel Cosgrove, James Sheridan, James Hill, George Kinney, Michael Reynolds and John Carr.

Burial was in St. Patrick's cemetery, where the final prayers were read by Rev. Fr. Heffernan. Undertakers M. H. McDonough Sons had charge of the arrangements.

BURNS—The funeral of Elizabeth Burns, beloved child of William and Maria Burns, who died this morning at the home of her parents, 116 West Sixth street, took place this afternoon at 3 o'clock and was well attended. Burial was in the family lot in St. Patrick's cemetery under the direction of Undertaker Thomas J. McDermott.

ATKINSON—The funeral of Mrs. E. Ernest Atkinson took place yesterday at 2:30 o'clock from her home, 17 Hampton avenue and the large attendance of relatives and friends bore silent tribute to the love and esteem for the deceased and sincere sympathy for the bereaved family. Rev. A. St. John Chamber conducted the services and Mr. William J. Wilson sang sweetly, "Lead, Kindly Light," "Face to Face," and "On the Resurrection Morning." The floral tributes were many and beautiful and included: Pillow of roses and violets inscribed "Wife," from the husband; pillow, "Our Blessing," Mr. and Mrs. A. B. Atkinson and daughter; massive pillow inscribed "Sister," Mr. Monroe Washer and Mr. Walter Osgood; pillow inscribed

JUDGES WHO WILL SIT IN STEEL TRUST CASE HAVE LONG CAREERS

TRENTON, N. J., Oct. 30.—The steel trust case will be heard by three United States circuit court judges. These are Judge William M. Launing of this city, Judge George Gray of Wilmington and Judge Joseph Buffington of Pittsburg. The request that three judges sit was made by the government upon the ground of the public importance of the litigation. They are the judges who decided the powder trust case ordering the dissolution of that organization. Judge Gray was born May 4, 1810. He is a

graduate of Princeton and studied law at Harvard. From 1879 until 1885 he was attorney general of Delaware and obtained the conviction of the Baltimore and Ohio railroad for violating its charter obligation. He is a democrat and has served two terms in the United States senate. In 1902 he was appointed by President Roosevelt chairman of the anthracite coal strike commission, which brought about a settlement of the great mine strike in the hard coal regions of Pennsylvania. Judge Gray was chosen arbitrator of the Alabama coal strike commission in August, 1903, and he was also arbitrator in a dispute between the Illinois mine operators and their workmen. In both of these instances his decisions were accepted by both sides and resulted in sending the men back to work. Judge Buffington is a republican and is fifty-six years old. He has been on the federal bench since 1892.

WHITNEY—The funeral of Miss

She Dreaded Future

SO HAPPY NOW HARDLY KNOWS HERSELF

Mrs. J. Flanagan, of 11 State street, city, made the following statement recently in connection with "Tona Vita," the new tonic that is accomplishing such remarkable results in Lowell.

Mrs. Flanagan said: "I have been sick for some time past. I doctored almost continually and had taken medicine until the thought of it made me ill. I had stomach and nerve trouble and I grew worse all the time until I was all run down."

"I had not had a good night's sleep for some time. Just to smell food cooking nauseated me, and when I did eat anything it would turn into a hard lump and distress me for some time. I had dull headaches and dizzy spells and felt so tired that I hated to be on my feet. I was dreadfully nervous and so depressed in spirits that I had a dread for the future."

"I was recently in the store of the Hall & Lyon Drug company, and saw a crowd of people up at the counter where 'Tona Vita' is being sold. I had no faith in any medicine to help me any more, but I saw many people buying this preparation and I went up to one of the men there and he gave me a sample of the medicine. I took it and that night I slept better than for a long time. The next day I went back and got the medicine."

"I began to improve from the first day I took it, and now feel like a new person. I am so happy I hardly know myself. I don't have an ache or pain and feel strong once more. The miserable nervousness and depression is gone. I sleep and eat well and my food agrees with me. It seems like a miracle that I am so changed in such a short space of time. I can certainly recommend this tonic, 'Tona Vita,' also the assistant remedy, 'Lee's Rhubarb Laxative.'"

Mrs. Flanagan is only one among many hundreds who have testified to the good qualities of "Tona Vita." Such statements should prove of unusual interest to those who are suffering with similar troubles and there are thousands of them in all the large cities like Lowell, say the specialists who are here introducing the new tonic.

"Tona Vita" will relieve a sour stomach and indigestion, as well as remove a nervous debilitated condition of all organs of the body, whether man or woman," continued one of these specialists. "It is a harmless, pleasant tasting preparation, though each demonstration how quickly responsive the preparation is in its good effects."

The "Tona Vita" specialists are at the Hall & Lyon drug store from 9 a. m. to 8 p. m. Those who fail to have the nature of a most miserable and all-too-common condition of the body explained and the value of a remarkable remedy demonstrated to them will have indeed missed a rare opportunity. This new tonic positively contains no harmful drugs.

Sylvia A. Whitney took place yesterday at 2:30 o'clock from her home in Chelmsford Centre. Rev. George P. Kemgott officiating. Mrs. F. L. Roberts sang appropriate selections. The bearers were George Howes, Howard Adams, C. O. Wheeler and Arthur Sturtevant. The services were largely attended by relatives and friends and the floral tributes were many and beautiful. Burial was in the Edison cemetery. C. M. Young in charge.

KINGSTON—The funeral of Mrs. Caroline P. Kingston took place from the funeral rooms of Undertaker J. E. Currier Co., 58 Prescott street, on Saturday afternoon at 2 o'clock. The services were conducted by Rev. S. W. Cummings, pastor of the First Baptist church, and the burial was in the Edison cemetery.

KAY—The funeral of Leonard Kay, infant son of Harry and Alice Kay, took place Sunday afternoon at 2 o'clock from the home of his parents, 33 Swift street, and was largely attended. The services were conducted by Rev. John T. Ullom, pastor of the Lawrence Street Primitive Methodist church. Burial took place in the family lot in the Edison cemetery, where the committal services were read at the grave by Rev. Mr. Ullom. The funeral arrangements were in charge of Undertaker John J. O'Connell.

FALLON—The funeral of Alice Fallon, infant daughter of Frederick L. and Alice, took place Saturday noon. The body was sent to Clinton, Mass., for burial in St. John's cemetery, by Undertakers J. F. O'Donnell & Sons.

PLEASANT SURPRISE PARTY
A very enjoyable event took place Saturday evening at the home of Mr. and Mrs. George Webber, 78 West Sixth street, when a number of their friends called and surprised them by the presentation of a beautiful student lamp. The occasion was the seventeenth anniversary of their married life. Although taken completely by surprise Mr. Webber in behalf of himself and his wife responded in a very pleasing manner to the presentation speech which was made by Miss Jessie V. White. During the evening refreshments were served and a musical program carried out, including piano selections by Mr. Jas. Kershaw; vocal selections, Mrs. A. Kershaw; duet, Mr. and Mrs. Ernest Leach; quartet, Mr. Peter Healy, Miss Emily White, Mr. Fred Porter, Miss Mary White; comic songs, Mr. Duckworth. Mrs. Webber was assisted in serving by Mrs. Chas. Whitney, Mrs. Emmott and Mrs. Marston. The house could not have been the recipients of many beautiful presents, including a guest towel, the hand work of Master Arthur Lyons. The party broke up with best wishes for Mr. and Mrs. Webber.

JUMPED THE RAILS
An inward bound Lexington & Boston electric car jumped the rails near the Fordway bridge, in Billerica, shortly before noon today and it took the wrecking crew, which was summoned, nearly an hour to replace the car on the tracks. Traffic between Lowell and Billerica was tied up for considerable length of time as a result of the accident.

BEN GETS THE "CUE" TO KEEP QUIET!

THE TEXTILE BOYS

Given Their First Defeat of the Season

On Saturday the Lowell Textile school eleven received its first defeat of the season at the hands of crack Dean Academy team by the score of 12-0. The game was witnessed by a big crowd who expected to see the usual large score which Dean has been accustomed to run up whenever it has played Textile, but they were badly disappointed as the Lowell team showed by its speed and aggressiveness that it was not to be dealt lightly with.

The first half was decidedly in Textile's favor and the latter was prevented from scoring only on account of an untimely fumble.

In the third period Dean came back strong and tore through Textile's defense for long gains. After an exchange of punts, the husky half-back of the Academy team, worked an end run of 15 yards to be followed in a few minutes by another of 30 yards, placing the pigskin within 3 yards of Textile's goal, and although they fought hard to save off the score, Milliken tore through the line for a touchdown. Wescott kicked the goal.

The fourth period was one of the most exciting seen in a game at Franklin this season, for the whole half was replete with fast plays and spectacular end runs. A touchdown was scored in this period after Torney had brought the ball to within five yards of the Textile goal by a series of pretty end runs. From the 5 yard line Torney managed to put the ball across the goal, on the third down. Wescott kicked the goal.

The three old Malesen High school stars, Milliken, Wescott, and Lucas played a fine game for Dean academy, while Shy, Hassett and Schofield excelled for Textile.

The summary:

Score: Dean academy 12, L. T. S. 0. The Lowell team scored its first touchdown in the first period when McMahon blocked Lawler's punt and recovering the ball ran 15 yards for a touchdown. Pahey kicked the goal. In the second period Dowd, the fast little quarterback of the Palmers, ran 45 yards through a broken field for the second touchdown. Pahey missed in the kick for a goal. There was no scoring in the third period.

PALMERS WON

DEFEATED THE ATHLETICS OF NORTH ANDOVER

The Palmers of this city defeated the Athletics of North Andover in the latter town Saturday afternoon by a score of 14-0. The Lowell team scored its first touchdown in the first period when McMahon blocked Lawler's punt and recovering the ball ran 15 yards for a touchdown. Pahey kicked the goal. In the second period Dowd, the fast little quarterback of the Palmers, ran 45 yards through a broken field for the second touchdown. Pahey missed in the kick for a goal. There was no scoring in the third period.

In the last period Dowd again proved his value by dropping a goal from the 25 yard line. Mooney and Cassidy played a fine game for the winners, while Lawler and Smith played well for the losers. A large crowd was present and rooted hard for their favorites, the Andover rangers making such a noise that at times it was impossible to hear signals. The Palmers are higher than ever before, but have yet to be defeated or scored on. The lineup:

BOXING GOSSIP

The match tomorrow night at the Armory A. A. Boston, is virtually a championship contest. The principals, Billy Papke of Illinois and Bob Moha of Milwaukee, are certain to put up the kind of a bout that appeals to the followers of boxing.

BILLY PAPKE

Billy Papke is considered the champion in the middleweight division. Bob Moha is one of the most dangerous contenders for the title that Papke has ever been matched with. His only showing in this city amazed the spectators. He is strong, clever, and a good hitter. He never backs up from an opponent.

Papke's opponents in this part of the country lacked some of the good qualities of Moha. They could not seem to withstand the onslaught of the "Illinois terror." In Moha he will find a boxer who can stand any kind of a grueling contest, and who is exceptionally clever.

The semi-final bout between Gilbert Gallant of Chelsea and Freddy Duffy of Jamaica Plain will provide plenty of exciting boxing. The men are direct opposites in style as well as build. Duffy is clever, while Gallant is exceptionally strong.

The other bouts are between Ed Bennett of Quincy and Yankie Evans of Brockton, and Frankie O'Connor of Boston and Steve Kennedy of Lawrence.

The bouts this week are:

MONDAY

Mark Conley vs. Jack O'Neill, Westfield.
Puckey McFarland vs. Al Dewey, Wilkesbarre.
Jack (Twin) Sullivan vs. Tony Ross, Youngstown.

Willie Lewis vs. Jeff Doherty, New Haven.
Young Dyson vs. Tommy Houck, New York.
Tommy Kilbane vs. W. Allen, Syracuse.

Larry English vs. Bill Hurley and Frank Maloney vs. Young Marto, Glens Falls, N. Y.
Young Donahue vs. Kid Lucca, Sydney, C. B.

One-Round Hogan vs. Willie Howard, Brooklyn.
Kid Burns vs. Buddy Fox, New York.
Teddy Murphy vs. Young Puckey McFarland, New York.

Patsy Kline vs. J. White, Cleveland.
John Gans vs. Steve Kennedy, Newburgh, N. Y.

TUESDAY
Bill Papke vs. Bob Moha, Fred Duffy vs. Gilbert Gallant, Frankie O'Connor vs. Steve Kennedy and Yank Evans vs. Ed Bennett, Armory A. A.

Andy Morris vs. Jim Stewart, Brooklyn.

PRINCETON ELEVEN HAS LIVE ONE AT CENTER IN BLUENTIAL.

PRINCETON, N. J., Oct. 30.—Head Coach Bill Roper says that in Bluenenthal the Tigers have the leading center of the 1931 football season. The big fellow has all the qualities that go to make up the ideal middle man under the new rules, says the coach. This is Bluenenthal's second year on the eleven. In 1919 he did fairly well, but this season his work has been brilliant. He is also some kicker and one of the most accurate passers of the ball in the country.

JOE WALCOTT

Will Box Sawyer Here Thursday Evening

Rather than offend the law as interpreted by the state police the Lowell Social and Athletic club suspended its meetings this fall until such time as it could secure permanent quarters of its own. While it had leased Matthews hall for a number of dates, the police were of the opinion that the quarters were not permanent under the meaning of the law. Hence the club suspended its sessions temporarily and after considerable trouble in getting a desirable location secured a new hall in the recently erected building at the corner of Market and Hanover streets. The new quarters are in a new and modernly constructed building, well protected in case of fire and well lighted, heated and ventilated. Gymnasium apparatus and baths are being installed and the club will resume its session on Thursday evening of this week when for a main attraction it will have for the final bout two well known Lowell favorites, dusky Joe Walcott of Boston, ex-champion welterweight of the world, and Tom Sawyer of Portland, Me. There will also be two six round preliminaries and an eight round semi-final. The meeting as usual will be for members only and those who have not secured their new membership cards should do so at once.

TOM DOWD

SAYS NEW BEDFORD OWES HIM \$2000

With two new claims against the New Bedford Baseball association, Attorney E. T. Bauman representing ex-manager Thomas J. Dowd, filed a writ with the clerk of the superior court at Taunton, stating in detail the plaintiff's allegations in his action of contract against the baseball association. It is further alleged that the New Bedford club received \$150 for immediate delivery of "Paddy" Bauman to the Detroit club and Dowd claims his share of this sum.

In all Dowd alleges that the club owes him \$300 for unpaid salary and a little over \$1500 on commissions.

Mrs. James Stuart Garvin of Grammercy park, New York city, wife of Capt. James S. Garvin, retired, U. S. N., left for New York yesterday. Mrs. Garvin and the captain have been visiting at the home of her sister, Mrs. N. B. Dunlop of Woodward avenue for the past two months. The captain sails for Italy in command of the United Fruit Co.'s new liner "Espartero," with a ship full of passengers, on Nov. 4th.

the electric cars to Nashua. The witness said that the skylight had been broken and that boards had been removed from the door of the cement over the store. He also found a bar which had been used to pry the boards up. Patrolman Clark informed the court that one of the men who he was given to understand took part in the break after being out of town for several weeks suffered a cold from sleeping out doors at night and contracted pneumonia and coming back to this city died shortly afterwards.

Patrolman Noonan corroborated Patrolman Clark's testimony relative to the arrest and conversation with Jarvis.

Jarvis, testifying in his own behalf, admitted that he was outside the store, but denied the greater part of Patrolman Clark's testimony relative to a conversation with him. Witness said he had money of his own and paid his own fare and his only reason for leaving the city was because he was out of work and thought he might secure employment in another city.

Alleged Illegal Sale

Hugh Ferguson, licensee of the St. James hotel in Middlesex street, was arraigned before Judge Hadley in police court this morning on a complaint charging him with the illegal sale of liquor on Sunday, October 25. He entered a plea of not guilty and inasmuch as his counsel is engaged at the present time the case was continued till Nov. 8.

Supt. Redmond Welch of the police department is the complainant. It is alleged that Charles C. Wallace and William G. Lee, superintendents of the police department, entered the hotel on the date in question and that the former was served a glass of beer without having previously ordered food.

Present at a Game

There was a quiet little game of craps going on in Front street last night, but the police cut wind of the evening session and shortly after nine o'clock Patrolmen John J. Sullivan and John F. Conlon, entered the building and making their way to a room gained an entrance and found seven men, six of whom were seated around a rug which had been placed on the floor. They were sent to the police station where they were booked for being present at a game on the Lord's day. They have the names of Izat Ali, Charles Hussayin, Bakis Hassan, Omar and Buched Ahmed, George Thomas and Harry Stunch.

In court this morning each entered a plea of guilty, but it was necessary to use Greek and Turkish interpreters in order to make the defendants understood. One of the offenders was an American. They were found guilty and each was ordered to pay a fine of \$5.

Game Was Interrupted

Supt. Welch yesterday learned that

JARVIS FOUND GUILTY

there was a big crap game in session in Indian Orchard in the vicinity of the car barn yesterday afternoon and the superintendent, accompanied by Court Officer Peter Cawley, drove to the scene and were almost on top of the players before they discovered who the visitors were. The players and those present, with the exception of Thomas Hughes, took to their heels and made good their escape. Hughes was brought to the station, where he was booked for being present at a game on the Lord's day. In court this morning he entered a plea of guilty to the complaint and a fine of \$5 was imposed.

Two Complaints of Drunkenness

Michael H. Tobin was charged with having been drunk on Friday and Saturday of last week. He entered pleas of not guilty. Sergt. Bart Ryan testified that he went to Tobin's house in Mill street Saturday night armed with a warrant against him for drunkenness and when he found Tobin the latter was intoxicated. Patrolman Garfield corroborated the testimony of his superior officer.

George Shields who lives in the tenement above that occupied by Tobin said that Tobin had been drunk and very boisterous on Friday night that the defendant went up the stairs and tried to kick in his door.

Tobin denied that he had had anything to drink either Friday or Saturday, claiming that the man upstairs was the cause of the trouble. He said that Mr. Shields' sons had tried to murder him.

Tobin was found guilty and sentenced to three months in jail from which sentence he appealed.

Created Disturbance on Car

William Murphy and Samuel Greenwood pleaded guilty to complaints charging them with drunkenness. Patrolman J. H. Clark, the arresting officer, said that the street railway company had complained of drunken passengers on the North Chelmsford car on Saturday nights and he had been on the lookout for such people. He said that both Murphy and Greenwood were disorderly and that the former used considerable profanity. Murphy was fined \$15 and Greenwood was fined \$10.

Drunken Offenders

Michael Farron, who lives here and there and everywhere, tried to get on a North Chelmsford car, but the conductor refused to allow him to do so. Later the man was arrested. He was fined \$2.

James J. Burns, who is from out of town, was arrested Saturday for the third time within a month. He was sentenced to the state farm but appealed.

William F. Mead was found guilty but inasmuch as the court felt that he had been doing well for the past several months it was decided to give him another chance and Mead was placed in the custody of the probation officer for one year.

Catherine A. Hayes was sentenced to five months in jail.
Elmer E. Dearborn, Jacob Fuss, Dan-

JARVIS FOUND GUILTY

iel Twomey, William Angus, John Draddy, Frank Johnson, John J. Corrigan and James O'Malley were fined \$5 each.

Philip Beauregard and Peter Lamore, Sunday drunks, were fined \$5 each. Ten first offenders were fined \$2 each and eight simple drunks were released.

Disorderly Conduct

Frank O'Connor and James O'Rourke, while intoxicated, got into a fight in Central street, near the corner of Jackson street, Saturday night. They were placed under arrest by Lieut. Freeman and Patrolman Kelly. In court this morning they were each fined \$12.

MINSTREL SHOW

AND DANCE AT SACRED HEART HALL TOMORROW EVENING

The Holy Name society of the Sacred Heart church will hold a minstrel show and dance in the school hall in Moore street, tomorrow evening.

The final rehearsal of the troupe was held yesterday afternoon. The latter includes some of Lowell's leading singers and minstrel talent. At yesterday's rehearsal they showed all the fine qualities of a professional company. Their singing of the latest popular songs and the chorus work were of a high order.

Mr. Henry T. Curry, who has had much experience in this line, is in charge of the performance, with Richard Noonan, of the Merrimack Square theatre, as accompanist.

Among the soloists are James E. Donnelly, John Devlin, Edward Shea, Henry Curry, George Daly and Master Francis Donoghue, the boy soprano. The end men are George (Babe) Rodgers, Charles A. Carey, Warren Rodgers and George Brennan. Charles Moore will be interlocutor.

The opening overture will be a great feature. It embraces a number of the latest song hits, especially secured from New York for this occasion. The end songs include "Alexander's Rag Time Band," "Oceana Roll," "Mysterious Rag," and "My Lovin' Honey-Man." The latter will be given by Mr. Curry for the first time in this city and it is considered one of the best "coon songs" ever written.

The performance will start at 8 o'clock. After the show general dancing will be held.

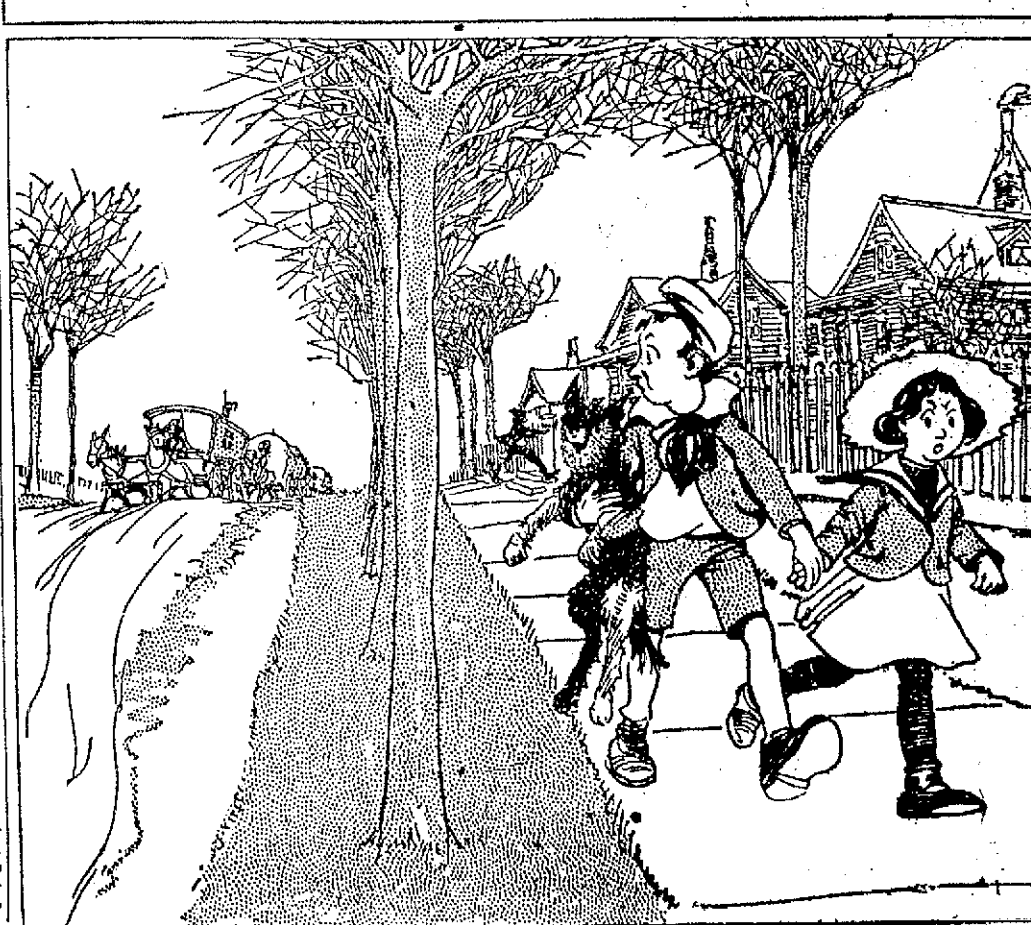

COUCH ON FIRE

IT IS THOUGHT BLAZE WAS STARTED BY CHILDREN

An alarm from box 15 at 11:05 this morning, summoned a portion of the fire department to a slight blaze in a couch in a house on Mill street. The blaze was extinguished before any damage was done other than to the couch.

From what Chief Hosmer could learn two children were in one of the chambers making a bed and one of the girls finding a match scratched it on the side of the bed and the top fell over to the couch and set it afire.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1910 was

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before me, January 2, 1911. J. JOSEPH HENNESSY, Notary Public.

Only one week now remains in which to decide not only the fate of the political questions at issue in this campaign, but also the city charter question which for Lowell is one of prime importance.

SENTIMENT FAVORING THE CHARTER

Public sentiment is growing rapidly in favor of the new city charter. There is absolutely no sound argument against it. The charter may not be perfect in every detail but minor defects can be easily remedied. If the charter should be beaten it would probably be several years before another attempt would be made. We want a change now and we want it at the earliest possible moment. The working classes will especially be benefited by the new charter because by their organizations they will be able to apply the initiative, the referendum and the recall, and thereby get what they want.

PLAYING THE POLITICAL GAME

The governor's council has proved itself a very partisan body of late in dealing with the nominations submitted by His Excellency. The council refused to confirm the nomination of Lot McNamara of Haverhill for the board of arbitration and conciliation merely because he had attained some distinction in democratic politics. The council has held up various other appointments, such as E. Gerry Brown to enforce the small loan law, Prof. Droppers for the railroad commission and several others. The council is thus playing a partisan role when it refuses to confirm men because they happen to be democrats. It is time that this effete body were abolished, for there is in this country no closer approach to the aristocratic idea than is found in the executive council, its membership and its methods.

DEMOCRATIC OPPORTUNITY IN STATE AND NATION

The republicans are making the strongest fight of which they are capable for the purpose of bringing this state back to the republican column for the effect it will have on the national election. The democrats, either from lack of discretion or over confidence, do not seem to consider this phase of the case. It is undoubtedly a fact that the action of Massachusetts on the head of the ticket in the coming election will have a strong effect in the national contest of next year. The democratic party being the one that wants to get into power needs all the help it can get from this source and should lay the foundation for a national victory in 1912 by a sweeping victory in the Bay State in 1911. It would be a great victory for Senators Crane and Lodge as for the standard republicans throughout the country if they could bring Massachusetts back into the republican column in the coming election. They are striving hard to elect Frothingham, a young man who, though personally cultured, has very little in the line of ability and experience to commend him to the office. On the other hand, Governor Foss is the successful business man whose experience in conducting the affairs of the state is worth a great deal. During the past year he has done much to put the business of the various state commissions upon a business basis. He has found a good deal of laxity in the departments he has overhauled, and were he given another year he could carry out the various reforms he has proposed, reforms that will fall by the wayside unless the governor be reelected.

The contest then is to be regarded in a two-fold light, first in regard to its benefit to the state, and second its bearing upon the national election to follow next year. It is time the democrats of this state awoke to the realization of what may happen, what they can do to redeem the country from a party whose identification with the trusts has become a byword in the nation. A change is needed, and the people will vote for a change unless the democratic party shows another great stroke of mismanagement for which it has been so long noted whenever it came face to face with the opportunity to win a great victory.

THE COMMISSION OF FIVE

Some opponents of the new charter plan say that five members is too small a number to handle the city's business, that it is smaller than the number of directors in a bank or large corporation. But the five men are on the job all the time, giving their attention to the city's business, disposing promptly of every question that comes up either as individuals in charge of certain departments or collectively in open meetings at regular intervals.

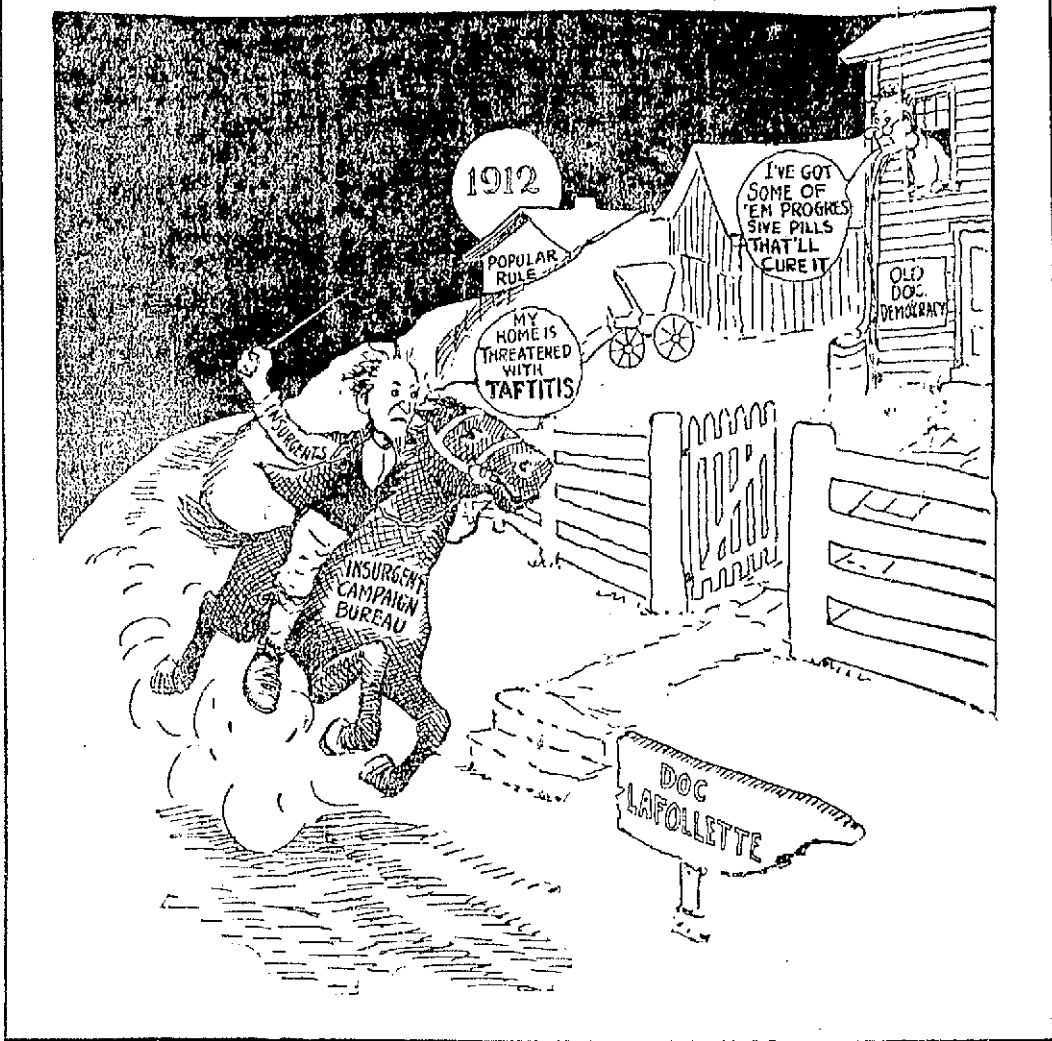

Five men working six days a week for the city are better than 36 meeting twice a month and leaving the departments to take care of themselves in the interim. Besides, they are absolutely under the control of the voters, one-fifth of whom can force an election for their recall, can force the enactment of measures demanded by the people or block unpopular measures until adopted by the people.

In order to recall any of the five men it is not necessary that he be convicted of any crime. If the voters believe him dishonest or unfaithful to duty, they have the right and the power to remove him.

Where then is the danger of allowing such a small number of men to take charge of the city's business?

The hint by certain opponents of the charter that it is easier to corrupt the commission of five under the new charter plan than a body of 36 men as elected under the present charter is absurd for the reason that the people would have absolute power over the five whereas they have no power at all over the 36 except on election day. The five men to form the municipal council under the new charter will be the servants, not the masters of the people. They will represent all the wards as an entire whole and they will serve the interests of each particular ward better than this has been done under the old system. For the democratic wards the change should be especially welcome, because in the common council they have always been subject to a republican majority. Now they are to be given an equal voice in the government of the city with the other wards, and they are being advised by office-holders and office-seekers that this is for their injury. Why should it be an injustice to any class of citizens to place them on an equality with every other class?

Why is it that when more power is being given the voters certain people tell us their power is being taken away?

A NEW REMEDY FOR SKIN TROUBLES

Everyone knows, or should know, that many skin troubles are not in the blood, but on the skin itself, and that external treatment is the most direct and rational way to effect a cure. The new remedy, Cadum, gives immediate relief in many skin troubles. It has helped so many people that there is no longer any doubt about it. Cadum contains an extract from the tree Juniperus Oxcedrus, which acts so rapidly and effectively that the itching is relieved at once and the skin is soon restored to a soft, healthy condition. Cadum is good for eczema, pimples, sores, eruptions, rashes, itching and burning skin, chafings, etc. 10c and 25c, all drug stores.

EDITORIAL COMMENT

Boston Post: The cheering announcement is made that the American Woolen company is now operating between 70 and 75 per cent of its machinery, the largest proportion thus far this year. This is good news for employees and for the communities in which the company's various mills are located.

And it also suggests that the mere prospect of tariff revision was supposed—and is still, by stand-pat republican orators—to create in not materializing to any great extent.

DR. EATON RESIGNS

Gives Up Position of Cattle Inspector

Dr. William S. Eaton, who for the past several years has been connected with the Board of Health as cattle and meat inspector, has resigned his position, and the selection having decided to appoint inspectors by districts, have named the following subject to confirmation by the state board of health: Robert Mills for Collinsville, Harry M. Fox for Dracut Centre and Bernice Parker for East Dracut.

Dr. Eaton's reasons for resigning the position are the strict regulations put into force by the state board of health, which greatly increase the duties of the inspector of cattle and meat, the doctor having found the position with its increased work too demanding and arduous for the remuneration in salary. The position last year paid \$864.50, that amount being set in last year's town report as Dr. Eaton's bill for service as inspector of animals, provision and meats.

The district inspectors will not be paid a regular salary, but will receive remuneration for the actual time spent in discharging their duties.

Boston Commission Merchant In Auto Accident at Wells, Me.

WELLS, Me., Oct. 30.—John H. Farnum, Jr., 22, a Boston commission merchant, was instantly killed yesterday when an automobile in which he was a passenger became uncontrollable and plunged over an embankment at the roadside.

Of the three others in the car, only one escaped serious injury. David C. Hunter, 45, of Boston, had the right side of his head so badly crushed that physicians declare that he cannot recover; Fred B. Farnum, 19, a brother of the dead man, sustained a fracture of the right leg and numerous body bruises, and B. A. Price, 36, of Boston, had his right ankle sprained.

Price was pinned beneath the car when it overturned, but managed to free himself in time to crawl to the aid of Fred Farnum who had landed in a brook. But for Price he would have drowned.

The party, it is said had been touring York county looking up the apple situation and were on their way home when the accident happened. Price, the owner of the car, was at the wheel and was driving the machine at about 35 miles an hour.

While going down a hill, near Colos corner, on the post road between Portland and Portland, the steering gear refused to work and after running wild for some distance the machine left the roadway and went over a six-foot embankment, turning turtle.

John H. Farnum, Jr., who was killed,

landed on his head on a flat rock, breaking his neck and death was instantaneous. Hunter also landed on a rock and the left side of his head was crushed. Fred Farnum was rendered unconscious when he landed in the brook.

LOWELL OPERA HOUSE

The Irish players from the Abbey theatre, Dublin, are unique amongst theatrical organizations in that they do not work for salary and fame only. They share in the profits of their productions of the American engagement, Lady Gregory, the Irish dramatist, and William Butler Yeats, the Irish poet, are directors of the Irish National Theatre society, the society which has fostered the new literature of drama in Ireland and given ambitious young Irish dramatists an opportunity to be heard. Lady Gregory and Mr. Yeats have no financial interest whatever in the theatre and have never taken a penny from it. Their devotion to the Irish drama and their hard work in nursing it through its perilous days in a hostile and artistically successful youth they gave through sheer love of Ireland, their native land. The Irish players are further unique amongst the actors of the world in that they are engaged for fifty-two weeks each year, instead of as is customary for the run of the play. Thus they are paid for rehearsals, which no other actors are. With their salary and their share in the profits, each of the players is very well satisfied with his and her artistic lot in life, not to mention the fact that they have several months vacation each summer with salary paid. In these respects, at least, the lot of the Irish player is more comfortable than that of his American brother, but then Ireland is unlike all other countries anyway.

The Irish players come to the Opera House next Thursday, Nov. 2 for one performance only.

KEITH'S LOWELL THEATRE

The headline act at Keith's theatre this week reminds one of the old story of the Irishman and the parrot: "Excuse me, sir, I thought you was a bird," as the Irishman said when he heard the parrot talk. A person to hear Charles Kellogg reproduce the sounds of birds without seeing him would believe that the feathered songster itself were near. Mr. Kellogg has a gift of nature that stands alone in the world of vocal culture. He does not imitate birds by means of the lips but actually sings their songs from his throat even as they do, reproducing them with such accuracy as to attract the birds themselves to him. His gift is nothing that he has acquired through any particular ability as a singer, but comes from a peculiar but natural formation of the throat which no artificial means can duplicate and is a great scientific problem among students of voice culture. No other person has even been known who can even imitate Mr. Kellogg. Appreciating his marvelous gift he has made a deep study of the denizens of the flowery kingdom, their songs and cries which he explains and illustrates in most interesting manner this week. A feature of his demonstration is what is known as "The Dancing Flame," in which he causes a perpendicular gas flame to vibrate in unison with the song of a bird by simply singing the high song several feet removed from the flame. He then attempts to make the flame vibrate in unison with the human voice, and other noises but is unsuccessful, the peculiar air vibration of the song bird tones alone causing the phenomenon. His demonstration which is of too high an order to be known by the popular term "act" is one of the most attractive ever offered on the stage. Associated with Mr. Kellogg on Keith's bill this week are Savory Trio and the bull pup quintet that accompanies them: Leonard and Whitney in a most laughable act entitled "Duffy's Rise," the Great Richards who sings and dances; the Harvey DeVora Trio, a trinity of fun-makers par excellence; Kimberly and Hodgkins, theologians of the piano; Mintz and Palmer in an act that is immense and the pictures first run reels. AMATEUR NIGHT WEDNESDAY

story of a man who allows a whole day and night to slip by him unmutilated while he is sleeping off the effects of a wine party. He awakens blissfully ignorant of the fact that time has continued to fly while he was in more or less sweet repose. He starts out to go about his business as he would have gone the day previous had he been on earth and he immediately finds himself up against a sequence of situations most bewildering to him but furiously funny to those who are merely spectators to his plight. After a whole lot of troubles the awful fact dawns upon him that he has temporarily stood still while the world made one revolution and matters finally iron themselves out in a satisfactory manner while he finds himself saying with the poet: "Count that day lost whose low descending sun etc." Miss Lucille Spinney, the beautiful and talented leading woman who has just joined the Donald Meek company, makes her first appearance in the leading female role in this play today. Miss Spinney has appeared in "Lost—24 Hours" before and is right at home in the part. It is a foregone conclusion that Miss Spinney will become a prime favorite with the patrons of the Hathaway theatre. Seats for this week's performance may be ordered in advance by telephone, 211.

MERRIMACK SQUARE THEATRE

In securing acts for this playhouse the management exercises the greatest of care in the selection of only the best and most refined of vaudeville entertainment. That the general public heartily approves of such a method is clearly shown in the liberal patronage accorded the Merrimack Square theatre from week to week. The attendance last week was over twenty hundred, all other local theatres and the coming week should duplicate the same results for the bill is one that should please the fancies of all.

"The Laughing Horse," a comedy creation in which six people are engaged, is to be the feature number. Judging from advance notices the sketch is almost sure to "catch on" from the very start. It has enjoyed a most successful run throughout the east and is booked many weeks ahead, a fact that indicates its true worth. Don't miss this feature if you enjoy clever entertainment.

"A Woman's Example," is the weekly presentation by Our Stock company, a piece that has been successfully given by many of the well known artists. In it Kendal Weston, Stanley Wood and Miss Constance Jackson will be seen to excellent advantage.

Julius Harron is an amusing comedian, known as "The Little German," and his repertoire of jokes and funny sayings are sure to keep his audiences convulsed. James Stanley is another high-class comedian whose offering is entirely apart from that given by Harron, and he also will share in the honors of the week.

The motion pictures on the world's series between an actor and a Philadelphia will be given for the first time during Monday, Tuesday and Wednesday of this week. These pictures are the original ones and should provide good entertainment for the large number of baseball fans hereabouts. The regular photo-plays are the pick of the latest productions put out by American and foreign manufacturers.

Charles Kellogg

The Nature Singer

The man who sings as birds sing. A gift of nature, not an accomplishment. Mr. Kellogg will introduce for the first time anywhere his "Dancing Flame," a blade of fire, indifferent to ordinary speaking or singing voice, which instantly responds to the reproductions of the sounds uttered by birds as made by Mr. Kellogg. He will also introduce the marvelous art now almost obsolete, of the Indians in producing fire by rubbing sticks, and other charming features of life in the woods.

INJURY MAY BE FATAL TRAIN WAS WRECKED

Amesbury Man Was Knocked Down by Runaway Horse

AMESBURY, Oct. 30.—Dashing to the sidewalk on Main street a runaway horse last evening struck Joseph Gondek of Mill street and Miss Stiel Gondek of Auburn street and crashed through the plate glass window of the drug store of Harris Chadwell, carrying the man and woman and a slot machine along with him.

Gondek was rendered unconscious and suffered a broken leg, scalp wounds and a possible fracture of the skull. Miss Gondek escaped with a few bruises. The horse was so badly out that it may have to be killed.

The accident had been caused by the breaking of a shaft pin of the carriage

in which William H. Sullivan, a livery stable keeper, and John A. Whalen were driving on Sparhawk street.

The shafts, falling, had struck the horse's hocks and caused him to run away, overturning the carriage and throwing its occupants out. Mr. Whalen escaped unhurt, but Mr. Sullivan, the owner of horse and carriage, was buried in the wreckage and his back was injured.

The horse, freed of the vehicle, continued down Sparhawk street to Main street. As he approached Chadwell's drug store he ran on the sidewalk and struck Gondek and Miss Gondek, who were walking there.

Traffic was blocked for two hours in North Chelmsford yesterday as the result of a collision of the day freight train from Northampton to Lawrence and three milk cars that had been upon the siding near the North Chelmsford depot.

The Aver train leaves three milk cars at this point to be picked up later by the regular Boston milk train. The freight, a lengthy and heavily-laden train, in charge of Engineer Winslow and Conductor Dwinell, was proceeding along at a slow pace as it neared the siding at 9.10 o'clock and as it is the custom of the freight to stop at the siding the brakes were applied, but according to the engineer they failed to work and the locomotive crashed into the rear of the first milk car, flinging it and lifting it bodily, almost overturning it. Fortunately the train was moving slowly and the engineer and fireman jumped in safety and escaped injury. The train was so long that it extended across the crossing in Middlesex street, completely blocking travel. Owing to the heaviness of the

train it was impossible to back it so as to clear the milk cars, while to proceed forward would mean the demolition of the cars. Station-master A. P. Freeze of North Chelmsford sent word to Ayer Junction for another engine, while an engine was telephoned for at Lowell to take the milk cars. It was after 11 o'clock before relief arrived. Meanwhile all electric car traffic was held up. A car that was caught on the Tynesboro end of the crossing ran trips between the crossing and Tynesboro until the road was opened. Foot passengers who could climb managed to go by but those in vehicles were held up.

DONATION PARTY

Held at St. Peter's orphanage Saturday afternoon

The donation party held at St. Peter's orphanage Saturday afternoon, under the auspices of the members of St. Elizabeth guild of St. Peter's parish, was a flattering success for both the organizers and the children of the institution. A pleasant afternoon was spent and a wide variety of articles received. A delightful entertainment program was rendered by the little ones as well as by Miss Gertrude Kelohor, the talented soprano of St. Peter's church. Mrs. Frederick Leahy, the well known contralto and Mrs. E. P. McOsler.

The program was followed by interesting remarks by Rt. Rev. Bishop Allen of Mobile, Ala., and Rev. Dr. Kelohor, pastor of St. Peter's church. Tea was served by the following members of the guild:

Mrs. William P. Barry, Mrs. Edw. Keown, Mrs. Thomas Lawler, Mrs. Edward Gallagher, Mrs. Constantine O'Donnell, Mrs. James J. McCarty and Miss Sarah Donovan poured. Mrs. John M. Murphy, Mrs. George M. Harrigan, Mrs. P. H. Gilbride, Mrs. Louis Grunewald, Mrs. John J. Donnelly and Mrs. Dennis Murphy served.

The building had been beautifully decorated by the sisters in charge, and the decorations consisted of autumn leaves, flags and bunting. The president of the guild is Mrs. Charles M. Williams.

HON. DAVID I. WALSH

**Addressed Large Local Rally
Saturday Evening**

Although it was not known until late Saturday afternoon that Hon. David I. Walsh was coming to Lowell and that Saturday night's democratic rally was to be held in Matthews hall, instead of the "Covey" and the "Covey" great gathering was on hand and the hall was filled. The gathering was enthusiastic as well and when Hon. David I. Walsh, one of the most forceful campaign orators ever heard in Lowell was about to bring his speech to a close on account of the lateness of the hour his audience cried out to him to continue.

Chairman Cornelius E. Cronin of the democratic city committee called to order and after impressing upon his audience the necessity of getting out the vote on election day introduced the president of the rally, Daniel J. Donahue who spoke in part as follows:

"Last year, at this time, the republican party was defeated by Governor Foss. This year, they are endeavoring to get back into office again, but the morning after election they will wake up and find that the history has repeated itself, and the people have re-elected Gov. Foss.

A reluctant legislature has been compelled to pass laws demanded by the people, but there is still much work for him to do.

Gov. Foss wants no man's collar. His investigation into the management of public business shows waste and extravagant expenditure of the people's money. The republican party has refused to remedy this evil and thus lighten the burden upon the taxpayer, and bring economy and efficiency into our state affairs.

Taxes have gone up by leaps and bounds, and the men who work and sweat must pay this waste out of their narrow means at a time when everything is advancing in price.

Elect Gov. Foss and a democratic legislature and this waste will be stopped.

A great act of Gov. Foss was his nomination of the bench. He has appointed men to administer the law, not because of their political activity, but because of their character and fitness for the place. In these appointments, he showed character and sound sense and has done much to elevate the judiciary.

Eugene N. Foss knows what work is and has come up from the ranks of the people. Under him we can march to victory, and bring Massachusetts into line and sympathy with the great reform movement that is stirring the country, which will sweep the party of grab and graft out of office and bring back once more an honest government of the people, for the people and by the people.

Let us redeem Massachusetts from the waste and extravagance which has multiplied her debts and the taxes of her citizens. Republican waste.

has raised the price of everything we eat and wear, increasing the price of living. Republican rule has meant taking money out of the pocket, meat out of the pot, bread out of the pantry of every toiler of the commonwealth.

Thos. P. Riley of Malden, a prime Lowell favorite received a warm reception. Mr. Riley spoke in part as follows:

"Mr. Frothingham trying to look savage and threatening while he tells the people that he is Jack, the Giant Killer, who is to save the industries of the Old Bay State from being mashed up into a sort of breakfast food to satisfy the political appetite of the monster Foss can't prevent the public audience from recognizing the farce comedy being staged by the Crane-Murray Political Machine operators, said Mr. Riley.

"The idea of Gov. Foss, who employs thousands of hands, who is financially interested to the extent of millions in Massachusetts mills and factories and who himself owns and manages some of the biggest plants in the state, the idea of such a man running for re-election as governor when such a re-election will shut down his plants, stop the wheels of the industries in which he is financially interested and send the great plants which he personally owns and manages is one of the most grotesque attempts at boogeyism ever perpetrated on an election."

William C. Pinfield received an ovation as he arose to speak and he made brief remarks urging all to vote an entire democratic ticket from top to bottom. J. Joseph O'Connor and Jas. P. Miskella also spoke and were enthusiastically received.

Hon. David I. Walsh aroused the enthusiasm of the gathering to a high pitch. In the course of his remarks, he said:

"I am going to present to you the commission of the republican party."

It comes from the lips of the mouthpiece of the republican state committee.

When the Lodge-Crane political trust, speaks officially, it speaks through the editorial columns of the Boston Transcript.

When that newspaper says that this political thing must be done or that political thing must be stopped, when it praises one policy or denounces another, when it pretends to give reasons why candidates should be elected or defeated, it reflects the mind of the bosses of the republican party.

On Wednesday of last week, for some strange, unaccountable reason, it made public confession of the sins and faults of the republican party.

In a long and labored editorial under the caption, "The governor who has not made good," it made these astounding admissions.

That the republicans passed a bad tariff law in 1909.

That a vast majority of the voters are thinking much of Foss of Fossism.

That the state platform of the republican party is a joke and a trick, meant to get in on and not to stand on.

That in making appointments Gov. Foss has been guided by overwhelming popular sentiment.

That the rise of Gov. Foss was not an unmitigated evil; that it has done the republican party good; that the republican party can no longer repose in easy conservatism since it has seen that the people are eager for progressivism.

Those are the confessions that the republican party makes of its attempts to fool the people of its own incapacity for honest government and of the strong sentiment in favor of democratic policies.

MORE DELEGATES

MASSACHUSETTS REPUBLICANS

GAIN BY REAPPOINTMENT

WASHINGTON, Oct. 30.—The call for the republican national convention, to be issued by the national committee when it meets in Washington, Dec. 12, will provide for 1904 delegates, to be increased to 1972 if Arizona and New Mexico become states before the convention is held.

The increase from 880 delegates, which comprised the Chicago convention of 1908, is the result of the re-apportionment by congress, which increases the size of the house of representatives from 391 to 435 members, or 45 with the two new states.

A table showing the apportionment of the delegates to the 1912 convention has been prepared by Francis Curtis of Springfield, Mass., in charge here of the republican national committee and the republican congressional committee. This arrangement is expected to be adopted without change by the committee.

The distribution includes: California 26, Connecticut 11, Illinois 65, Maine 12, Massachusetts 36, New Hampshire 8, New Jersey 28, New York 90, Ohio 48, Oklahoma 20, Pennsylvania 76, Rhode Island 10, Texas 49, Vermont 8, Washington 14, Wisconsin 26.

VOICE OF MAYORS

From Other Cities Including Birmingham, Ala., and Pittsburg, Kan.

Today we give letters from cities in which the commission form of government is in force so that the writers know whereof they speak. With one acclaim they say the new charter gives more power to the people, gives better service and in general shows better results for the money expended. The first letter is from the city of Birmingham, Ala., with a population of 132,683. The others are from smaller cities, but in these the effect of the change to the new form of government is even more marked.

THE LETTER OF INQUIRY

The circular letter from this office was as follows:

Lowell, Mass., October, 1911.

Dear Sir:

As the citizens of Lowell are soon to vote upon the question of adopting the commission or Des Moines form of charter in all its important features and as the opposition claims that the new charter will take the power away from the people, that it is backed by the money power in Wall Street and means a return to slavery, will you kindly answer the following queries for the information of the citizens?

1—If these claims have any foundation?

2—Under such a charter can any particular class of citizens have special advantages over any other class?

3—Has this form of charter improved conditions in your city or would you go back to the old form of charter?

4—Is there any reason why the working classes should not prefer such a charter to the old fashioned double chamber system in which partisan politics is predominant?

By answering these questions or giving any other information in regard to this charter you will greatly oblige Yours very truly, etc.

FROM BIRMINGHAM, ALA.

City of Birmingham,

Board of Commissioners.

October 27, 1911.

Editor Lowell Sun,

Lowell, Mass.

Dear Sir:—Five years of October 17 relative to Commission Form Government, Birmingham has been operating under this system a little over six months, having changed from the aldermanic plan last April. The question of changing from the aldermanic to the commission form of government was submitted to the voters, and the commission carried about eight to one. Since the commissioners have been in charge of the affairs here, the expenses of the city government have been reduced about \$150,000.00, and I do not believe that this city would even consider going back to the old form of government.

Yours very truly,

H. S. RYAL,

Secretary Board of Commissioners.

FROM PITTSBURG, KAN.

Office of City Clerk.

Pittsburg, Kan., Oct. 25, 1911.

The Lowell Sun,

Lowell, Mass.

Gentlemen: Your favor of October, 1911, to hand: I have answered the questions you have asked me, on the letter sent so I am returning it to you. We are well satisfied with the Commission form and would not go back to the old form for anything.

I am satisfied some improvements can yet be made, but like everything else it will grow. October 1, 1911, we bought our water works.

Yours truly,

A. C. Graves, mayor.

The answers to questions 1, 2 and 4 are no, no, no. The other commissioners of Pittsburg with departments of which they have charge are as follows:

Who: Lanyon, Jr., commissioner of finance and revenue; Bert Mead, commissioner of parks and public property; James Oliver, commissioner of streets and public improvements; J. A. Nichols, commissioner of water works and street lighting.

CITY OF MODESTO, CAL.

Below is a very important and instructive letter from the city of Modesto, Cal., where the municipal council consists of G. J. Wren, mayor; councilmen, L. T. Moss, Geo. Perley, G. P. Schaefer and C. D. Swan.

Modesto, Cal., Oct. 23, 1911.

Editor of The Sun,

Lowell, Mass.

Dear Sir: I have your circular letter bearing date of Oct. 17 and note query in matter of commission government for municipalities.

It is impossible for me to understand why any one should think that the commission form of government takes any power away from the people. On the contrary it places everything absolutely in the hands of the people or at least as worked out by our charter. It does. I will answer your questions as you put them: First, no, absolutely no. Second, positively no. Third, yes.

While this form of government under our new charter has been in operation only four months, we have already made a noted improvement in general condition of the city. Each commissioner is "on his job" all of the time. The commissioner of public works has absolutely "cleaned up the city" along his line of work and the commissioner of public health and safety, who has charge of the police department is very rapidly "cleaning" the city along his line. There is no friction in the council. Everything goes like a clock; the people are satisfied; there is not a voter in the city who would vote to return to former conditions. Fourth,

there is no reason why the working class should not prefer such a charter and government to the old way, but on the contrary every reason why they should. It is purely a business proposition which gives to the city the same modern methods which any wide awake business man gives to his business affairs.

The writer at one time served this city on the board of trustees, under the old arrangement. The business of the city was handled by committees, usually two members of the board on a committee. As usual, the work to be performed by such a committee was either not done at all or done by some one man on the board who gave up for time to the dear people. While this was at a time before the commission form of government was thought of for our city, the writer used every effort to induce board of trustees to appropriate the work to each of the members so that each would have his part to work to attend to and would be held responsible for it. This is exactly what our commission form of government provides for. Under this form of government each councilman, as a commissioner, has his particular duties to perform and is held responsible for the results, not alone by the council but by the people of the city. The result is all that can be desired here.

Very truly yours,

G. J. Wren,

Mayor of Modesto.

Michael J. Dowd will preside and the speakers will be Mayor Meehan and Lawrence Cummings. The public is invited.

AGAINST CHARTER

MAYOR JOHN F. MEEHAN WRITES

AGAINST ITS ADOPTION

The following communication relative to the new city charter was received Saturday and was necessarily crowded out until today.

Lowell, Oct. 28, 1911.

To the Editor of The Lowell Sun:

This is the eve of charter week. The question as to whether Lowell shall adopt the form of government proposed is the most important which has been before us in years. I think we can fairly assume neither side, those opposed or those in favor, wants a simple vote which is not cast with at least a reasonable understanding of what it all means.

It can hardly be denied I think that for months the newspapers have been filled with arguments all in favor of the new instrument. Those of us who are opposed are no doubt to blame in

ARCHBISHOP O'CONNELL NOTIFIED

BOSTON, Oct. 30.—Official confirmation of his elevation to the cardinalate was received at 2 p. m. today by Most Rev. William H. O'Connell, archbishop of Boston.

Cardinal-designate O'Connell will go to Rome to attend the consistory on November 27th, according to a statement issued this afternoon.

BURGLARS ENTER POSTOFFICE

NORTH DIGHTON, Oct. 30.—An unsuccessful attempt to blow open the safe at the North Dighton postoffice was made by burglars early today. About 3 a. m. Frank Pine, a fireman at a paper mill, heard an explosion. On leaving the mill to investigate he was confronted by a man with a revolver, who ordered Pine back into the factor. Pine then telephoned to the Taunton police and when the officers arrived it was found that the burglars had entered the postoffice through a rear window and had tried to blow the safe door off its hinges. The door, however, remained firm, although the explosion caused considerable damage to furniture in the office.

means a quorum, than a city council of 36.

Those seeking improved service from the corporations are told that at last we will have men who can go right to the banking rooms of the corporations and make them do the right thing. Our substantial citizens, and I use the term for lack of a better one, are being assured this means at last they can sit in to the government without the bother of present conditions. Yet at the same time, every ward in the city and the representatives of almost every nationality are being told that they most certainly will be allowed representation on that board, though how it is to be done with a total of five remains to be proved.

Let us look the matter squarely in the face. The facts show that in the two favorite example cities, Haverhill and Des Moines, things are unsatisfactory in many ways and financial

conditions are far from happy. The great cry is to reduce Lowell municipal business to a corporation basis, to substitute boards of directors for councilmen and to carry on the work in that fashion. We are told that five are sufficient to run the city and then we provide further that three men can do it. Is there a national or savings bank in Lowell or a mill corporation which has only five directors?

I await an answer.

If it takes seven, eight, nine and ten men to run a bank or a mill, is the great corporation of the city of Lowell so easy a problem that five men can be trusted, and three of them made a quorum?

This is a business question, a fair question, one every citizen should take home to himself.

Respectfully yours,
John F. Meehan.

GRAND SERVICES

Immaculate Conception Church Re-opened to Worshipers Yesterday

The re-decorated Immaculate Conception church was reopened yesterday with beautiful and impressive services, inspiring music and one of the most eloquent sermons ever heard in Lowell.

A description of the new interior of the church appeared in Saturday's Sun but to be appreciated the splendid beauty of the edifice had to be seen and from the expressions of delight heard on all sides after the services it was evident that the fondest anticipations of the parishioners had been realized.

Several masses were sung in the upper church during the morning but the principal service was the solemn high mass at 11 o'clock to which many from all over the city had been invited in addition to the parishioners themselves and the great edifice was crowded to the doors when the impressive procession of clergymen and altar boys emerged from the vestry. There was much about the re-opening to recall to the minds of the older members of the parish the original dedication of the church in 1877 under the zealous pastorate of Rev. James McGrath, O. M. L., followed by the pastor of the parish, for Rev. Dr. Coyne, the preacher of the occasion, was an asso-

ciate of Fr. McGrath; Very Rev. T. Wade Smith, O. M. L., the celebrant of the mass, and now provincial of the Oblate order, determined his vocation under the fatherly guidance and advice of Fr. McGrath, while all the officers of the mass were born in the parish and were received into the order at the neighboring Novitiate at Tewksbury. The preacher at the evening service, Rev. David Murphy of Dorchester, is also a native of the parish and received his inspiration for the priesthood through the Oblates of the Immaculate Conception church.

The celebrant was Very Rev. T. Wade Smith, O. M. L., the deacon was Rev. John C. Duffy, O. M. L., the sub-deacon was Rev. Owen R. McQuaid, O. M. L., and the master of ceremonies was Rev. E. J. Fox, O. M. L. The acolytes were Joseph McGarvey and James McKeown, and the readers were Arthur J. O'Neill and Joseph Kelly. Seated in the sanctuary during the mass were Rev. Lawrence P. Tighe, O. M. L., pastor of the church; Rev. Dennis A. Sullivan, O. M. L., a curate there; Rev. Bernard Fletcher, of the Sacred Heart church, and Rev. Robert Barrett, O. M. L., of the Tewksbury novitiate. The altars were

decorated with flowers and the immaculateness of the marble altar was emphasized by the glow of hundreds of lighted candles.

The music by a choir of 50 voices under the direction of Joseph P. Courtney was an inspiring feature of the service.

Mrs. Hugh Walker presided at the remodeled organ, now the most imposing in Lowell, and brought out its possibilities as to power and tone in most artistic manner. At the offering the stately jubilo hymn "In Exultation" was rendered by the choir, the solos being sustained by Miss Margaret Walsh and William Gookin. The responses were sung by the sanctuary choir of 60 voices under the direction of Mr. Staden of Boston.

The sermon on the text of words of the Apostles' Creed: "I believe in the holy Catholic church" was delivered by Rev. Dr. James Coyne of Taunton, Mass., one of the leading orators of the Catholic church in America. Lack of space forbids the publication of the eloquent discourse in its entirety and the following abstract hardly does justice to the preacher:

CHARTER QUESTION

Will be Last on the Ballot

The following five questions are to be voted upon at the election of next Tuesday:

- (1) Shall a proposed amendment to the constitution authorizing the use of voting machines at all elections be approved and ratified?
- (2) Shall the proposed amendment to the constitution, increasing the power of the legislature to authorize the taking of land and property for highways or streets, be approved and ratified?
- (3) Shall an act passed by the general court in the year 1911, entitled "An Act authorizing the counties of the commonwealth to establish the retirement systems for their employees," be accepted?
- (4) Shall an act passed by the general court in the year 1911, entitled "An Act to extend the provisions of the civil service act to chiefs of police of certain cities and towns," be accepted?
- (5) Shall an act passed by the general court in the year 1911, entitled "An Act to amend the charter of the city of Lowell" be accepted?

DAMAGED BY FIRE

Gasoline Causes a Blaze in Chelmsford

A four cylinder Buick automobile, belonging to Charles N. Woodward, manager of Bright, Sears & Co., brokers of this city, was damaged by fire on the Robbins Hill road in Chelmsford, Saturday evening.

The car became stalled in the afternoon, owing to carburetor trouble, and after working on the machine for a considerable length of time it was decided to send for a mechanic to look into the trouble. Word was sent to one of the local garages and men were sent to Chelmsford to make adjustments to the carburetor.

It was nearly dark as the repairs were being completed and in order to provide a light a person who was present lighted a match to assist the men who were underneath the car. The hand flew from the match and set fire to the gasoline which was on the road.

The men under the car hurried to get out of danger and fortunately escaped being burned, but before the fire could be extinguished the flames had burned one of the forward wheels, the fire and the woodwork about the front of the car. The car was later towed back to this city.

RUSHING THE WORK

Street Dept. is Pushing Smooth Paving

The street department will finish the smooth paving work on the west side of Dutton street today and will move on to the Merrimack street tomorrow. The bad weather put the department back in its work and Supt. Putnam allows he will have to go some to get through before the snow flies. The idea of moving from Dutton street to East Merrimack street is to keep the pavers going. It will require a week for the work on Dutton street to be finished to dry and by that time the pavers will be pretty well through with the north side of East Merrimack street. Then they will return again to Dutton street and back again to East Merrimack street.

School Committee Tonight

The school committee will meet tonight instead of tomorrow night as was scheduled on the weekly bulletin. Some of the committee members will be engaged tomorrow night and their brother members will attend the meeting should be held tonight.

BLOWN TO PIECES

Explosion on a Big Tank Steamer

NEWARK, N. J., Oct. 30.—A big steel tank steamer owned by the Pure Oil company was blown to pieces in the Passaic river today by an explosion of gasoline. Albert Angier of New York, the chief engineer, was killed.

Captain Dow of Brooklyn, assistant manager of the company's fleet of oil boats, had both legs broken and may die. The remaining three men aboard were hurled into the river but escaped without serious injury.

The steamer was known as "Number Five." The explosion occurred when it was supposed, when a spark reached leakage from a tank used to run the gasoline engine.

SUPREME COURT

GAVE INTERPRETATION OF FEDERAL SAFETY APPLIANCES

WASHINGTON, Oct. 30.—An interpretation was given today by the supreme court to the federal safety appliances act which provides that it is violated by shipments from one point in a state to another point in the same state if carried in a car not properly equipped but which is used on a railroad that is highway for interstate commerce.

LOSS IS \$75,000

FIRE IN DELOHERY HAT CO'S PLANT

DANBURY, Conn., Oct. 30.—The factory of the DeLoher Hat company on State street was partly burned today with a loss estimated at \$75,000. There was partial insurance. The fire started in the drying room.

DIED SUDDENLY

PHILADELPHIA, Oct. 30.—Robert Patton Lisle, pay director of the United States navy who was retired with the rank of rear admiral, died suddenly today at his home in this city from heart disease. He was 67 years old.

STOCK MARKET

WAS HEAVY AT THE CLOSE THIS AFTERNOON

American Smelting Attacked By Bear Operators—The Price Went Down to Below 90—U. S. Steel Reacted a Single Point

NEW YORK, Oct. 30.—The market opened quietly except for the copper shares and Chesapeake & Ohio. Trading was on a much smaller scale than at the end of last week. The first transactions in U. S. Steel amounted to 4500 shares at 52 1/2 to 52 3/4, computed with Saturday's closing price of 52 1/2.

U. S. Steel pt. gained 1/2. Canadian Pacific was strongest of the railroad shares, gaining 1/2. Missouri Pacific dropped 1/2.

The market weakened on offerings of stocks purchased last week to support prices and pressure by bears who pointed on unfavorable developments at the American Tobacco hearing today. Pressure was most effective in the metal group, United States Steel, Amalgamated Copper and American Smelting selling a point under Saturday's close. Prices of the railroad shares, however, held last week's level with Canadian Pacific reaching a point from the best.

Movements of stocks through the morning session were irregular. An undertone of heaviness was noticeable during the early trading but before this largely disappeared and a brisk advance was scored. Sentiment was affected by the circulation of reports concerning the likelihood of the dissolution suits against corporations. American Smelting was most affected by these reports and was conspicuously weak. Trading was not large.

Operators preferred to await news of the progress of the American Tobacco hearing before taking on heavy risks. During the noon hour the market shook off its early heaviness and there was a rally in the active stocks of from 1 to 1 1/2 from the lowest. American Smelting made its loss of 2 points. American Tobacco issues were heavy but the general bond market held well.

Further improvement was checked for a time by renewed weakness in American Smelting. Other stocks yielded only slightly and there was a subsequent strong rise in all quarters. U. S. Steel touched 54, compared with 51 1/2, the lowest of the forenoon.

All of the railroad stocks improved substantially. Buying by the short interest was largely instrumental in the rise in prices. Operators were impressed by the sturdy resistance shown against American Smelting and the gradual elimination of today's American Tobacco proceedings as a factor in the market.

On the failure of the supreme court granting a further delay in the Virginia debt case Virginia preferred currency which closed last week at 59, broke to 48 with wide fluctuations between sales. This incident took off the edge of the improving tendency in stocks and there was a general fractionation of the market which speculation became dull.

The market closed heavy. Bear operators encountered no opposition in attacking American Smelting. The absence of support and the closing out of stop loss orders enabled them to press the price to below 50, which was more than 3 points away from last week's close. Moderate recessions occurred in other stocks with U. S. Steel reacting a point and Amal. Copper falling to the lowest of the day.

THE LYNN TROUBLE

May be Referred to the Arbitration Board

LYNN, Oct. 30.—Unless unexpected difficulties should arise it was confidently expected by both manufacturers and cutters that the trouble in the Lynn shoe factories, where about 500 cutters have been locked out because of their demands for an eight-hour day, would be referred to an arbitration board. The only thing that appeared to cause a halt in the conference to be held late this afternoon at the office of Mayor Connelly was the belief that there might be a difference as to who should be the arbitrators. The manufacturers desire to have the matter settled by the state board of arbitration but the cutters want a local board to decide the question.

The cutters will also insist that pending the arbitration of the eight-hour day question, the men who were locked out should return to work on a 45 hours a week basis.

THANKSGIVING DAY

President Taft Issues a Proclamation

CHICAGO, Oct. 30.—President Taft today issued this annual Thanksgiving proclamation, calling on the citizens of the United States to celebrate Thursday, the 30th of November next, as a day of Thanksgiving and prayer. The proclamation reads as follows:

"The people of this land having by long sanction and practice set apart Thursday, the 30th of November next, as a day of Thanksgiving and prayer. The proclamation reads as follows:

THE GRAND JURY

May Not Report on the Richeson Case Until Tomorrow

BOSTON, Oct. 30.—It was believed that when the grand jury, which has been considering the government's case against the Rev. Clarence Richeson for the alleged murder of Avis Linnell, took a recess for luncheon today that the end of the taking of testimony was in sight. Indications were that the last witness would be heard before adjournment into this afternoon. These persons were largely from Cambridge and either connected with the Immanuel Baptist church, where Mr. Richeson was pastor, or neighbors on Magazine street.

Edward Watson, treasurer of the Immanuel Baptist church, made an unsuccessful attempt to see Mr. Richeson at the Charles street jail this morning. He lacked the necessary permit. Thence he made his way to

the courthouse, where he secured, it is understood, a pass from Sheriff Fred F. Seavey, which would allow him to enter the jail. He would not say when he expected to visit the pastor.

Mr. Watson went immediately to Charles street jail and presenting his permit was allowed to see the prisoner. The object of his visit could not be learned but it was understood that it had some connection with Mr. Richeson's pending resignation from the church.

Mr. Richeson received words of cheer from a fellow minister of high local standing today when he was delivered a letter from Rev. C. A. Patton, pastor of the Dexter street Baptist church, and president of the Boston Ministers conference. Mr. Fulton, when seen at the jail while giving the letter to one of the guards to be handed to Mr. Richeson, would not disclose its contents but said: "It is merely one of cheer, an expression of esteem and hope that the mystery will be cleared up. Mr. Richeson is certainly entitled to the benefit of every doubt until he is found guilty."

THE TOBACCO TRUST

Plans of Dissolution Discussed by Expert Counsel

NEW YORK, Oct. 30.—Before a notable gathering of expert counsel in the circuit court for the southern district of New York, hearings were begun today to devise some plan of dissolution and reorganization of the tobacco trust ordered by the supreme court of the United States.

Attorney General Wickersham filed the government's answer to the reorganization plan prepared by the American Tobacco Co. and co-defendants in the government's suit-trust suit. Sitting in the case were Circuit Judges Lacombe, Cox, Ward and Noyes. At the outset Judge Lacombe announced that the American Tobacco Co. as proponents of the dissolution plan would first be heard, Lewis Cass Ledyard, as counsel for the defendant companies, making the opening statements.

Following the opening representatives of the group of bond holders and outside interests would be heard. Then the government will be heard.

Mr. Ledyard argued against a re-organization plan. "Never yet in this country," said Mr. Ledyard, "has confiscation of property been permitted and I hope it never will. I think it not unreasonable that the supreme court recommended that a plan of reorganization of the companies be devised which will be in harmony with the law and will result in disaster to business interests."

Mr. Ledyard declared at that at the outset following the order of the supreme court for dissolution of the combination it seemed almost impossible to devise a plan but that a plan finally had been proposed after many conferences in which Attorney General Wickersham participated.

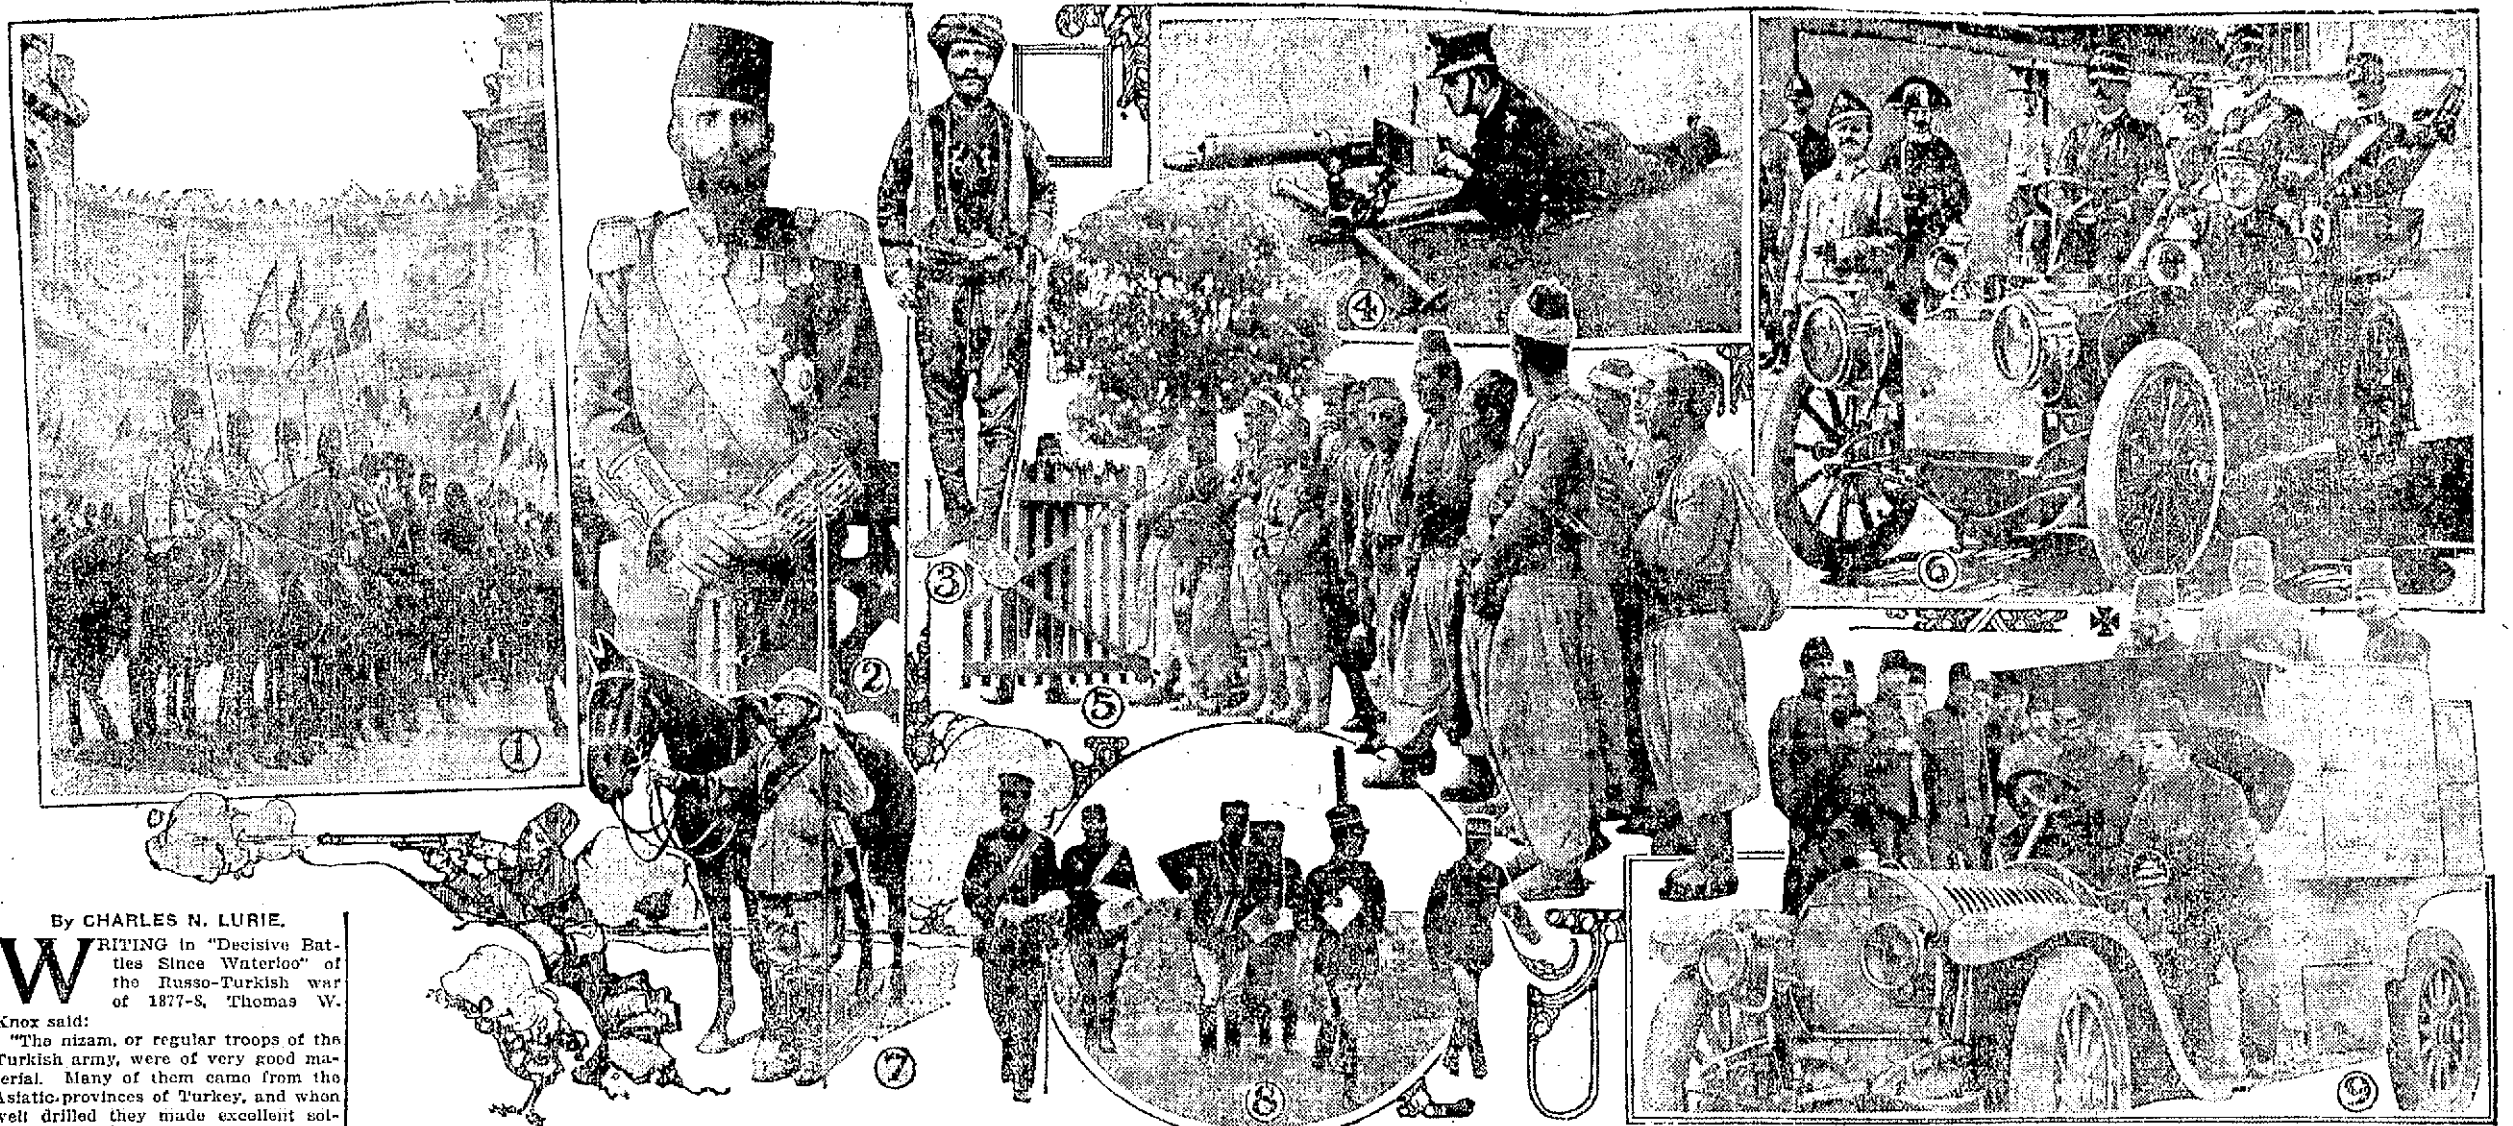

"It was found eventually," Mr. Ledyard continued, "that it was not impossible to devise a plan. The plan which we propose we believe goes far beyond the organization requirements of the court and we believe should be acceptable to the government."

titious interests of stock and bond holders which had to be considered.

Mr. Ledyard described in detail the American Tobacco Co.'s proposal to divide the trust interests into separate and independent companies, no one of them to have any interest by way of ownership of stock or otherwise in any of the others. The division of the proposed companies, he declared, to be on sound business grounds.

"This division of property," Mr. Ledyard said, "into four principal divisions was a

ITALY AND TURKEY BOTH HAVE PLENTY OF "FIRST CLASS FIGHTING MEN"

By CHARLES N. LURIE.

WRITING IN "Decisive Battles Since Waterloo" of the Russo-Turkish war of 1877-8, Thomas W. Knox said:

"The nizam, or regular troops of the Turkish army, were of very good material. Many of them came from the Asiatic provinces of Turkey, and when well drilled they made excellent soldiers. The faith of Islam teaches that a Moslem who dies fighting for the preservation of his religion goes straight to paradise. According to the teachings of Mohammed, the Russian is an infidel, and consequently the war with Russia had a religious aspect. Under these circumstances it is no wonder that the Turkish soldiers manifested an almost stoical indifference to death and fought bravely to the last." And in Justin McCarthy's "History of Our Own Times" it is asserted that "the Turks, to do them justice, have never wanted fighting power. They have at all times shown great strength and skill in the mere work of resistance. Long after they had ceased to be anything of a terror to Europe as an aggressive power they again and again showed tremendous strength and energy in defense."

The two statements seem to sum up the situation as regards this year's difficulty of Turkey with Italy. Acting on the defensive, Turkey is strong, tremendously strong, with firm basis for her strength in the number of her soldiers and in the valor of her individual men. But she has lost the power, forfeited centuries ago to the advance of civilization and the genius of warfare, which once could send herds

of thousands to sweep irresistibly over Europe, Asia and Africa. Italian aggressiveness and Turkey's sea weakness have forced the Ottomans to fight on the defensive, and the issue hardly has been in doubt since the first gun was fired at Tripoli. Carrying the war to Italy has been out of the question owing to Italy's command of the sea and the ring of unfriendly powers surrounding Turkey on all sides. The latest authority stating the figures of relative Italian and Turkish effective military strength for 1910 shows figures that are almost equal. The regular Turkish troops are estimated at 250,000, while Italy had in active army officers and men with the colors 248,111 men. To these must be added in both cases the reserves and the militia, which bring Italy's theoretical total up to 2,330,202 and Turkey's war strength to well over 1,000,000. But it is asserted that "owing to the fact that the territorial militia of Italy is practically untrained these figures for purpose of comparison with those of other powers lose much of

their impressiveness." It seems likely, therefore, that the land fighting forces of the two countries are equal, or very nearly equal, so far as effectiveness is concerned. But of course Turkey must keep some of her men ready to fight the Albanians and other restless citizens.

All Italians Liable to Service.

By the laws of the Italian kingdom all men are compelled to serve in the army, but the emigration of able-bodied laborers and other causes bring the total called to the colors annually below the required number. Three years ago the number of exemptions was estimated at a sum of two years' service in the infantry was made compulsory. Last year, on July 17, the Italian parliament passed laws for the reorganization of the army. The expenditures for war provided in the 1910-11 budget were \$56,946,400 lire, approximately \$72,000,000. The condition of the army was reported as good before the outbreak of the war with Turkey.

In recent years the Italian military authorities have devoted much of their

attention to the development of the physique of their men. The recruits when called to the colors are generally undersized and without the knowledge of the proper use of their wry, work-hardened muscles. They are taken in hand by drillmasters and gymnastic instructors, who work great changes in the two years during which the men remain with them. Every regimental post has its gymnasium, its fencing hall and its open air athletic field. The men are underpaid and until recently at least have not been either well fed or comfortably housed. They find in athletic contests the only outlet for their energies, and accordingly the Italian army gymnasts and athletes are well known throughout Europe. The crack branch of the service in Italy, as elsewhere, is the cavalry. Here the men are put through a course of hair-raising stunts well illustrated by the photographs of perpendicular men and horses which have reached this country. Some of the finest horsemen of Europe are found in the ranks of King Victor Emmanuel's army.

Besides the regular army branches that are to be found in all armies, Italy has a few that are peculiar to the peninsula. Such are the Alpine brigades, of men specially trained in mountain climbing and covering rough territory, and the famous "bersaglieri," or rapidly moving and specially equipped infantrymen. These latter hold themselves as a force apart, proud of the distinction accorded to them by the army and the populace. There are twelve regiments of "bersaglieri," noted especially for their method of locomotion when on the march. It is a quick, peculiar step not used by any other body of men on earth. The word "bersaglieri" means riflemen, or sharpshooters.

Besides her European forces Italy has a few thousands of native soldiers in Eritrea, the Italian colony in Africa. Turkish reliance on horsemen.

For the current year the Turkish military and naval budget provided for an expenditure of about \$45,000,000, divided among the minister of war, the grand master of artillery, the minister

of marine and the gendarmerie, or police. The feature of the Turkish army in the past year has been the proposed plan for the reorganization of the light cavalry called the "hamidiye." The object of this reorganization was the utilization of the military reserve, considered valuable, supplied by the tribes of Kurda, or Asiatic Turks.

How far the upbuilding of the Turkish army has proceeded since the new men took hold of Turkish affairs, after the deposition of Abdul Hamid, is a question. The old regime, though lost in corruption, recognized a score of years ago that Turkey needed a modern army if she desired to keep her territory from the hands of her neighbors. Officers from the German, French and other armies were employed to whip into shape the mass of good fighting force of the Ottoman empire. But their efforts were hampered by the waste of money and material which followed inevitably the corruption pervading all branches of the government, and it is doubted that the work of the

younger generation of Turkish army officers now in control—men like Shevket Pasha and Enver Bey—has sufficed in the short time permitted to them to bring the Turkish army into condition.

No longer ago than July last it was reported by the American consul at Tripoli that the Turkish army authorities in northern Africa were reorganizing the forces there, replacing the flowing Arab costume and light sandals by uniforms of coarse cloth and heavy boots. The Ottoman government, the consul reported, intended to enroll about 4,000 new men for service in the interior posts, thus relieving many soldiers sent to Tripoli from Asiatic Turkey. Since June last there had been great enthusiasm among the Arab youths on entering the ranks, and the report of this enthusiasm has been confirmed by reports from Tripoli since the outbreak of the war. Back of Tripoli, in the country verging on and extending into the desert, are the Senoussia Arabs, a fanatical Mohammedan sect reported ready to march on the coast to fight the Italian invaders.

President Taft Won't Be "the Whole Cheese" at the Big Dairy Show

OH, it's a whopper of a cheese, a regular Behemoth of a cheese, a Gargantuan, Brobdignagian sort of cheese, the very granddaddy of all the cheeses that have been made, manufactured or concocted since the world began.

of the famous edam, or Germany, where the Umburger holds its odoriferous sway, can produce the like of our six foot Wisconsin specimen. Listen to the impressive figures:

It weighs 12,361 pounds, contains exactly 12,000 pounds of curd, 330 pounds

missoner John D. Cannon of Wisconsin and Food Commissioner A. W. Parkins of Minnesota, with forty other expert cheese mechanics, assisted in bringing "old cheese" into the world. Before they came into the process, of course, the cows had to yield the milk

factured the curd, took up the work. It required seventy-two tons of milk to produce the 12,000 pounds of curd. Now will you believe us, that is "some cheese!"

There will be a historic, impressive moment in Chicago on Oct. 30 when President Taft, who is a big man in many respects, is introduced to the biggest cheese in the world. No doubt thoughts of deep solemnity will flow through the presidential mind when a knife of fitting size is placed in his hand and he is asked to make the first incision in the caser monster. "Here stand I," no doubt the president will think, "in the presence of a greater than I," and he will cut into the rind with reverence and humility. It will be one of the important incidents of the present administration. Before he cuts the cheese he will make a speech, in which he will no doubt refer to the treat which awaits him.

Mighty as the cheese is, and entitled to first mention, it will not be "the whole cheese" at the sixth National Dairy show. Cows of class—the highest class in the country, in fact—bulls that are fitting companions, dairy apparatus of all kinds, cheese making devices, milk delivery wagons and everything else of interest generally to the public and specifically to the dairy farmer will be shown. As the big cheese—we just can't help reverting to the six ton hunk of edibility—is the largest thing of its sort on earth, so the dairy show is the most interesting exhibition of its kind ever held.

Prizes have been offered for the best specimens of cows of each of the well known dairy breeds. A breeder's cow herd was added recently to the list of classifications. It has been open to the best ten cows two years old and over of all breeds and will bring the best specimens against one another. A \$1,000 trophy and cash prizes of \$250 and \$100 are offered.

Not only will President Taft show his interest by attending the show, cutting the big cheese—there's that cheese again!—and delivering an address, but the government is officially interested in the show. A model dairy barn and photographs of the government inspectors' trips through the leading dairy districts of the country have been prepared. Nothing has been left undone to show the importance and value of the dairy industry.

Among the animals entered for exhibition are Jacoba Irene, champion long distance cow of the world. That does not mean that Jacoba Irene is a good traveler. It indicates that over a long period of time she has proved her worth in giving milk that maintains a high percentage of butter fat. Jacoba Irene is the best butter manufacturing plant in the country—in fact, producing more than her own weight in butter in one year.

Two Mayors, Far Apart In Distance, Close Together In Ideas

TWENTY-FOUR hundred miles apart in longitude, but close together in ideas, are "Our Jim" Rolph, mayor elect of San Francisco, and Lew Shank, mayor of Indianapolis. The former has just made a historic personage of himself by getting one of the largest votes ever cast for mayor of the city of the Golden Gate, defeating the incumbent, Patrick H. McCarthy. Shank is the latest official crusader against the high cost of living. He instituted recently a fight against the commission men of his city in an endeavor to force down the prices of potatoes and other necessities of life.

Rolph won fame and gratitude in San Francisco in 1906 after the great earthquake and fire had done their worst to destroy the city. He lived then and lives still in the "mission district," a section which felt heavily the force of the disaster. He shares in the pride which distinguishes native San Franciscans, and when the army authorities wished to set up a "soup kitchen" in the mission district for the relief of the homeless, hungry wanderers, Rolph protested.

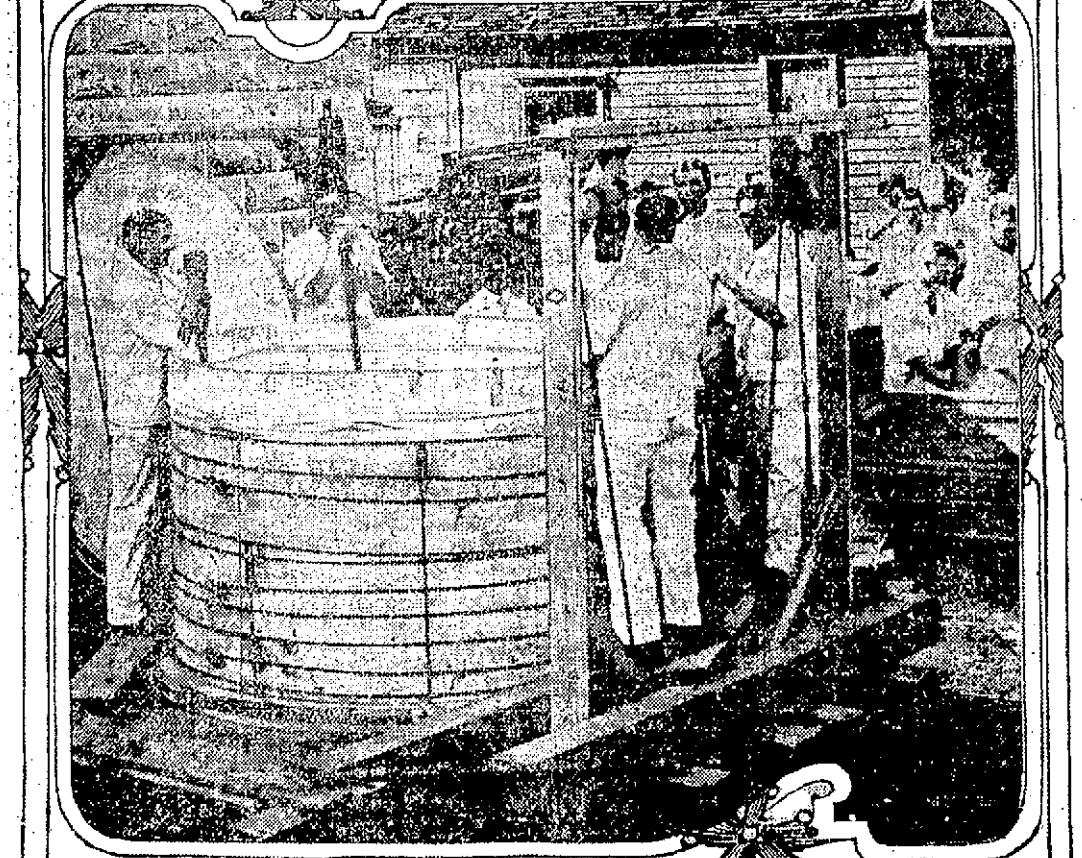

"Not one of these people shall go hungry," he said. "You have my personal word for that."

The people of the district backed him up, and the mission district knew no soup kitchen. But no one went hungry, for Rolph saw to it that 70,000 persons were fed by the Mission Relief association, which he helped to organize.

Rolph is one of San Francisco's "solid" men, with large business interests which are the result of his own efforts. He is forty-two years old, a native San Franciscan, a banker, and a merchant.

Shank's action in combining potato selling with running the city government of Indianapolis is not his first official deed to get into the national limelight. Early last year the country was interested in learning that the mayor of Indianapolis thought the best way of punishing a saloonkeeper who violated the law was sentencing him to attend church and suspending his license until he brought a letter from a minister testifying that he had been present at a service.

Shank's latest stunt is the bringing to the city of farm produce, beginning with potatoes, to be sold direct to consumers and thus cutting out the middleman's profit, which has been denounced bitterly. It was reported to the mayor that the commission men had sent word to Texas potato growers that the local market was glutted with potatoes and that no more should be sent, although the market ruled firm in

MAKING THE WORLD'S BIGGEST CHEESE.

Never since an Egyptian peasant, way back about 3000 B. C., shook up some milk in a goatskin and invented cheese has there been so tremendous a cake of curd and whey as the one which has been made for exhibition at the National Dairy show in Chicago, Oct. 28 to Nov. 4. Not even Holland, home

of salt and 31 pounds of rennet, but not a single ounce of coloring matter frowned upon by the pure food law. It cost between \$5,500 and \$6,000 to build, erect, construct, or whatever else one does to a cheese when one makes it. Nicholas Simon, the famous American cheesemaker, assisted by Food Com-

missioner John D. Cannon of Wisconsin and Food Commissioner A. W. Parkins of Minnesota, with forty other expert cheese mechanics, assisted in bringing "old cheese" into the world. Before they came into the process, of course, the cows had to yield the milk

Indianapolis with the tubers selling at from \$1.25 to \$1.75 a bushel. So the energetic burgomaster started the movement to bring farm produce directly to the home of the consumer. capital. LOUIS J. MAXWELL.
